

INTERNATIONAL CONFERENCE ON
BLENDED LEARNING ECOSYSTEM FOR
HIGHER EDUCATION IN AGRICULTURE

Indian Council of Agricultural Research (ICAR)

COVERAGE
REPORT

MARCH 2023

Indian Council of Agricultural Research (ICAR) organised First International Conference with World Bank

- **International Conference on Blended Learning Ecosystem for Higher Education in Agriculture Attracts Students, Policy makers, Stakeholders and Academia across Globe**

The Indian Council of Agricultural Research (ICAR) and the World Bank recently organised an International Conference on Blended Learning Ecosystems for Higher Education in Agriculture in alignment with the National Education Policy. The conference was held in New Delhi and saw the participation of experts and educators from various countries.

The conference aimed to explore ways in which blended learning could be used to enhance the quality of education in agriculture and attract students to pursue higher education in the field. The conference highlighted the significance of the agricultural sector in the development of the economy and the need to equip the youth with the necessary skills and knowledge to contribute to this sector.

Here are a few highlights of the International Conference:

- The conference emphasized that blended learning could provide a solution to the challenges faced by the agricultural education sector, such as the lack of qualified teachers and inadequate infrastructure.
- Blended learning combines online and offline learning to provide a more comprehensive and interactive learning experience. It enables students to access course material and resources online and attend in-person classes, workshops, and field trips.
- Blended learning is particularly suited to the agricultural education sector, as it allows students to learn about the latest developments and technologies in the field while gaining practical experience in the field.
- The conference highlighted the need to develop a blended learning ecosystem that is based on a strong digital infrastructure and provides access to high-quality content and resources.
- It also emphasised the need to train teachers and instructors in the use of technology and pedagogy to ensure that students receive the best possible learning experience.

Blended learning has several advantages over traditional classroom-based learning. It provides students with flexibility in terms of when and where they can access learning material. This is particularly important for students who are working or have other commitments.

- At the conference, academics, industry leaders, and representatives from ten different nations participated in panel discussions on issues connected to blended learning in higher education for agriculture.

- Panel discussions were held at the conference on a variety of subjects, including the future of blended learning in agriculture, the use of digital tools for blended learning, the problems and opportunities of online learning, and the role of technology in agriculture education.

The conference concluded with a call to action for policymakers, educators, and other stakeholders to work together to create a blended learning ecosystem that can attract more students to pursue higher education in agriculture. The conference emphasized that the agricultural sector offers tremendous opportunities for young people and that a strong education system is essential to harness these opportunities.

Blended learning has the potential to transform the agricultural education sector and provide students with the skills and knowledge they need to contribute to the development of the economy. The conference highlighted the importance of creating a supportive environment for blended learning and developing a culture of innovation and continuous learning.

The International Conference was extensively covered by tier 1 media with more than 700 coverages across print, online and electronic. 100% positive tonality covering 15+ citie

Press Release - Transforming agriculture for better tomorrow: Indian Council of Agricultural Research (ICAR) announces First International Conference with World Bank

Print

Publication:	Hindustan Times
Date:	14 th March 2023
Edition:	Lucknow

**ICAR announces 1st
int'l meet with
World Bank**

LUCKNOW : The Indian Council of Agricultural Research (ICAR), the apex body for coordinating, guiding and managing research and education in agriculture, and the World Bank have come together to announce the first international conference on 'Blended Learning Ecosystem for Higher Education in Agriculture' in India under the National Agricultural Higher Education Project. The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR-IASRI, which is a multi-partner global forum to support collaboration for the development of a blended education system for higher agri education.

ICAR, WORLD BANK TO HOLD INTL CONFERENCE

New Delhi: The Indian Council of Agricultural Research (ICAR) and World Bank have come together to announce the first International Conference on Blended Learning Ecosystem for Higher Education in Agriculture in India under the National Agricultural Higher Education Project (NAHEP). The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP). The conference and exhibition will be inaugurated by the Union Agriculture Minister Narendra Singh Tomar while global leading institutions like AICTE, IIT, IRRI among others would participate.

एग्रीकल्चर थीम पर होगा प्रथम अंतर्राष्ट्रीय सम्मेलन

● 21-23 मार्च के बीच नई दिल्ली में सम्मेलन का उद्घाटन कृषि मंत्री नरेन्द्र सिंह तोमर करेंगे

नयी दिल्ली, (पंजाब केसरी) : कृषि क्षेत्र में अनुसंधान एवं शिक्षा के समन्वय, मार्गदर्शन और प्रबंधन के लिए शीर्ष निकाय भारतीय कृषि अनुसंधान परिषद (आईसीएआर) ने विश्व बैंक के साथ मिलकर राष्ट्रीय कृषि उच्च शिक्षा परियोजना (एनएएचईपी) के तहत भारत में ब्लेडेड लर्निंग इकोसिस्टम फॉर हायर एजुकेशन इन एग्रीकल्चर थीम पर प्रथम अंतर्राष्ट्रीय सम्मेलन करने की घोषणा की है। आईसीएआर-आईएएसआरआई (इंडियन एग्रीकल्चरल स्टैटिस्टिक्स रिसर्च इंस्टीट्यूट) की मेजबानी में नई दिल्ली में 21 से 23 मार्च तक होने वाला यह तीन दिवसीय आयोजन, उच्च कृषि शिक्षा के लिए अत्याधुनिक मिश्रित शिक्षा प्रणाली के विकास की दिशा में गठबंधन को सहयोग प्रदान करने वाला एक बहु साझेदार

वैश्विक मंच है। इस सम्मेलन का उद्देश्य अकादमिक क्षेत्र, उद्योग, सरकार और बहुपक्षीय एवं द्विपक्षीय संगठनों से साझेदारों का एक वैश्विक सिस्टम विकसित करने की सुविधा प्रदान करना है। परिचर्चा के अलावा कृषि एवं मिश्रित ज्ञान के क्षेत्र में विभिन्न सेवाओं और पेशकश की प्रदर्शनी भी लगाई जाएगी। एआईसीटीई, आईआईटी, आईआरआई जैसे वैश्विक संस्थानों के साथ ही विभिन्न मंत्रालय भी इसमें प्रतिभागी बनेंगे। कृषि एवं कृषक कल्याण मंत्रालय के महानिदेशक डॉक्टर हिमांशु पाठक के अनुसार भारत में कृषि क्षेत्र, अर्थव्यवस्था में 17-18 प्रतिशत का सकल मूल्य वर्धित योगदान करता है और 40 प्रतिशत से अधिक कार्यबल को इसमें रोजगार मिला हुआ है। किसान फसल स्वास्थ्य और उत्पादन सुधारने एवं उस पर नजर रखने के लिए नयी टेक्नोलॉजी अपना रहे हैं। मिश्रित सीख को सही मायने में अपनाने में जबरदस्त संभावना है और यह कृषि अर्थव्यवस्था को नयी ऊंचाइयों पर ले जा सकता है।

बेहतर कल के लिए कृषि क्षेत्र में बदलाव

भारतीय कृषि अनुसंधान परिषद (आईसीएआर) ने विश्व बैंक के साथ प्रथम अंतरराष्ट्रीय सम्मेलन की घोषणा की

नई दिल्ली। कृषि क्षेत्र में अनुसंधान एवं शिक्षा के समन्वय, मार्गदर्शन और प्रवर्धन के लिए शीघ्र निम्न भारतीय कृषि अनुसंधान परिषद (आईसीएआर) ने विश्व बैंक के साथ मिलकर राष्ट्रीय कृषि उन्नयन शिक्षा परिवर्तन (एनएनईपी) के तहत भारत में 'ब्लेडेड लीनिंग इकोसिस्टम फॉर हार्वर एनुकेशन इन एग्रिकल्चर' थीम पर प्रथम अंतरराष्ट्रीय सम्मेलन करने की घोषणा की है। आईसीएआर- आईएएसआरआई (इंडियन एग्रिकल्चरल रेटिरोसिटिव सिस्टम इंटीग्रेट्यूट) को मेजबानी में नयी दिल्ली में 21 से 23 मार्च तक होने वाला यह तीन दिवसीय आयोजन, उन्नयन कृषि शिक्षा के लिए अत्याधुनिक मिश्रित शिक्षा प्रणाली के विकास की दिशा में गहन प्रवर्धन को सश्रेय प्रदान करने वाला एक बहु-साझेदार वैश्विक मंच है।

इस सम्मेलन का उद्देश्य अकादमिक क्षेत्र, उद्योग, सरकार और बहुपक्षीय एवं द्विपक्षीय संगठनों से साझेदारी का एक वैश्विक परिवर्तन विकसित करने की सुविधा प्रदान करना

है जहाँ ये संगठन राष्ट्रीय कृषि उन्नयन शिक्षा परिवर्तन (एनएनईपी) के तहत रीसिलिएंट एग्रिकल्चरल एनुकेशन सिस्टम (आएएसएस) के सभी पहलुओं को डिजाइन एवं पूर्ण रूप से क्रियान्वयन की दिशा में महत्वपूर्ण अंतर्दृष्टि उपलब्ध कराएंगे। एनएनईपी एक लीनिंग मैनेजमेंट सिस्टम, कंटेंट रिपॉजिटरी और प्रणालीगत क्षमता निर्माण की परिवर्तन है। इस सम्मेलन में परिचरों के अलावा कृषि एवं मिश्रित ज्ञान के क्षेत्र में विभिन्न सेवाओं और पेशकश की प्रदर्शनी भी लगी जाएगी।

इस सम्मेलन और प्रदर्शनी का उद्घाटन कृषि एवं कृषक कल्याण मंत्री श्री नरेन्द्र सिंह तोमर द्वारा किया जाएगा। एआईसीटीई, आईआईटी, आईआरआई जैसे वैश्विक संस्थानों के साथ ही विभिन्न मंत्रालय भी इसमें प्रतिभाग करेंगे। इस सम्मेलन के प्रमुख वक्ताओं में कृषि अनुसंधान एवं शिक्षा विभाग (डीएआरई) के सचिव और आईसीएआर के महादेशिक डॉक्टर दिगम्बर पाठक, आईसीएआर के उ

महादेशिक डॉक्टर आरसी अशवाल और विश्व बैंक के कंट्री हेड डॉक्टर अश्विनी कौंडा आदि शामिल हैं।

कृषि अनुसंधान एवं शिक्षा विभाग (डीएआरई) के सचिव और आईसीएआर, कृषि एवं कृषक कल्याण मंत्रालय, भारत सरकार के महादेशिक डॉक्टर दिगम्बर पाठक ने कहा, 'अंतरराष्ट्रीय मुद्रा कोष (आईएमएफ) के मुताबिक, भारत में कृषि क्षेत्र, अर्थव्यवस्था में 17-18 प्रतिशत का सकल घन्य वृद्धि योगदान करता है और 40 प्रतिशत से अधिक कार्यरत को इसमें रोजगार मिला हुआ है। किसान फसल स्वाम्य और उत्पादन सुधारने एवं उस पर नजर रखने के लिए नयी प्रौद्योगिकियाँ अपना रहे हैं। मिश्रित शिक्षा को सही मायने में अपनाने में जनसदस्य संघर्षना है और यह कृषि अर्थव्यवस्था को नयी उन्नाइयों पर ले जा सकता है।'

आईसीएआर के उय महादेशिक डॉक्टर आरसी अशवाल के मुताबिक, 'इस सम्मेलन का ध्येय रिपीट लीनिंग, डिजिटल शिक्षा और मिश्रित शिक्षा प्रणालियों के क्षेत्र में काम कर रही विभिन्न

क्रियान्वयन एजेंसियों के बीच गहराई को मनवृत करना है। यह एनएनईपी के तहत रीसिलिएंट एग्रिकल्चरल एनुकेशन सिस्टम (आएएसएस) को लागू करने में तेजी लाने के लिए डिजिटल रीडिंग और प्रिंटेड रीडिंग जैसे महती कार्यक्रमों के साथ समन्वय स्थापित करने में भी मदद करेगा।'

इस सम्मेलन का आयोजन मिश्रित अग्रगण्य-अग्रव्यव, मिश्रित शिक्षा के लिए प्रौद्योगिकियों, ब्लेडेड लीनिंग इकोसिस्टम में टिकाऊपन, ब्लेडेड टॉनिंग-लीनिंग इकोसिस्टम पर नजर रखने के लिए धारादारी की क्षमता का निर्माण और कृषि शिक्षा के लिए सम्मलान फ्यूचर आदि क्षेत्रों विषयों पर केंद्रित होगा। आईसीएआर द्वारा वित्त वर्ष 2017-18 में पान वर्षों के लिए कुल 16.5 करोड़ डॉलर की लागत में एनएनईपी को तैयार किया गया है जिसमें आधा खर्च विश्व बैंक और आधा खर्च भारत सरकार वहन करेगी। इसे देश में राष्ट्रीय कृषि शिक्षा प्रणाली को मनवृत करने के लिए नलाया गया है।

बेहतर कल के लिए कृषि क्षेत्र में बदलाव को लेकर अंतरराष्ट्रीय सम्मेलन

नयी 13 March, 2023 11:23 pm IST

नयी दिल्ली, 13 मार्च (भाषा) बेहतर कल के लिए कृषि क्षेत्र में बदलाव लाने के मकसद से विश्व बैंक और भारतीय कृषि अनुसंधान परिषद (आईसीएआर) इस महीने पहला अंतरराष्ट्रीय सम्मेलन आयोजित करने जा रहा है।

तीन दिवसीय सम्मेलन (21 से 23 मार्च) का विषय- 'ब्लैंडेट लर्निंग इकोसिस्टम फॉर हायर एजुकेशन इन एग्रीकल्चर' है।

इस सम्मेलन की मेजबानी आईसीएआर और भारतीय कृषि सांख्यिकी शोध संस्थान (आईएसआरआई) जैसी प्रमुख संस्था कर रही है। सम्मेलन का उद्घाटन केन्द्रीय कृषि एवं किसान कल्याण मंत्री नरेन्द्र सिंह तोमर करेंगे।

यह सम्मेलन, उच्च कृषि शिक्षा के लिए अत्याधुनिक मिश्रित शिक्षा प्रणाली के विकास की दिशा में गठबंधन को सहयोग प्रदान करने वाला एक बहुसाझेदार वैश्विक मंच है।

आईसीएआर की एक विज्ञापि के अनुसार, इस सम्मेलन का उद्देश्य अकादमिक क्षेत्र, उद्योग, सरकार तथा बहुपक्षीय एवं द्विपक्षीय संगठनों से साझेदारों का एक वैश्विक परिवेश विकसित करने की सुविधा प्रदान करना है।

कई अन्य मंत्रालय भी इस सम्मेलन के प्रतिभागी होंगे।

DX
+0.10%

नई दिल्ली, 13 मार्च (आईएनएस)। कृषि में अनुसंधान और शिक्षा के समन्वय, मार्गदर्शन और प्रबंधन के लिए शीर्ष निष्ठाप भारतीय कृषि अनुसंधान परिषद (आईसीएआर) और विश्व बैंक ने एक साथ हथ मिलाए है। वे साझेदारी कृषि में उच्च शिक्षा के लिए मिश्रित शिक्षण परिस्थितियों तंत्र पर पहले अंतर्राष्ट्रीय सम्मेलन के लिए की गई है। वे साझेदारी भारत में राष्ट्रीय कृषि उच्च शिक्षा परिषद (एनएचएसी) के तहत की जा रही है। इसका आयोजन नई दिल्ली में 21-23 मार्च तक विन्य वाएएच निसरवी मेकबान्डी आईसीएआर - आईएएसआरआई (भारतीय कृषि सांख्यिकी अनुसंधान संस्थान) द्वारा की जाएगी। आईएएसआरआई एक मल्टी पार्टनर वैश्विक ग्रुप है जो उच्च कृषि शिक्षा के लिए स्टेट ऑफ द आर्ट एडुकेशन सिस्टम पर साझेदारी को सपोर्ट करता है।

इस सम्मेलन का मकसद अकादमिक, उद्योग, सरकार, और बहुपक्षीय और द्विपक्षीय संगठनों के भागीदारों के शीर्षक दुर्बोसिस्टम के विकास की सुविधा प्रदान करना है, जो मानव कृषि शिक्षा प्रणाली के सभी पहलुओं के डिजाइन और कर्तव्यन के लिए मालखपूर्व अंतर्राष्ट्रीय प्रदान करने। यह मेकनत एजीकन्पस्त हार एडुकेशन प्रोब्लम (एनएएचपी) के तहत एनिसु मेनेजमेंट सिस्टम, कंटेंट रिवीबिलिटी और सिस्टम-वाइड केरिबिलिटी बिलिग करेगा।

कार्यक्रम के अलावा, तीन दिनसक कार्यक्रम में कृषि और मिश्रित शिक्षा के क्षेत्र में कई प्रकल की लेकओ और पेराकवों पर एक प्रदर्शनी भी लगाई जाएगी।

सम्मेलन और प्रदर्शनी का उद्घाटन कृषि और किसान कल्याण मंत्री नरेंद्र सिंह तोमर करेंगे। अन्य वैश्विक अडानी संस्थान जैसे एआईसीटीई, आईआईटी, आईआरआरआई सहित कई अन्य संगठन भी भाग लेंगे।

सम्मेलन को संबोधित करने वाले प्रमुख वक्ताओं में डॉ. शिमंगु पाठक हैं जो कृषि अनुसंधान और शिक्षा विभाग (डीएआरई) के सचिव और आईसीएआर, कृषि और किसान कल्याण मंत्रालय के महानिदेशक (डीसी) हैं। इसके अलावा कृषि अनुसंधान परिषद (आईसीएआर) के उपाय महानिदेशक डॉ. आर. सी. अशवाल और विश्व बैंक के कट्टी टापरकर डॉ. आगस्टे तानी सीमे शामिल हैं।

पाठक ने कहा, अंतर्राष्ट्रीय मुद्रा कोष (आईएमएफ) के अनुसार, भारत में कृषि क्षेत्र अर्थव्यवस्था के सकल घुस (जीडीपी) में 17-18 प्रतिशत का योगदान देता है और 40 प्रतिशत से अधिक कार्यबल को रोजगार देता है। किसान फलत स्वास्थ और उत्पादन में सुधार और निगरानी के लिए नए तरीके अपना रहे हैं। मिश्रित शिक्षा को सही ढंग से अपनाने में अवर सहायताएं हैं और यह कृषि अर्थव्यवस्था को नई ऊंचाइयों तक पहुंचा सकता है।

IC Transforming Agriculture for Better Tomorrow: Indian Council of Agricultural Research (ICAR) Announces First International Conference with World Bank

New Delhi [India], March 13 (ANI News/ANI): The apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on 'Blended Learning Ecosystem for Higher Education in Agriculture' in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR - IARI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for the development of a state-of-the-art blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministers will also be participating along with other global leading institutions like AICTE, IIT, IISc among others. Eminent speakers addressing the conference include Dr Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, Dr R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), Ministry of Agriculture and Farmers Welfare, Government of India and Dr Augustine Taso Kouame, Country Director, The World Bank among others.

Dr Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, said, "According to the International Monetary Fund (IMF), agriculture sector in India contributes 17-18 per cent of the Gross Value Added (GVA) of the economy and employs more than 40 per cent of the workforce. Farmers are adopting new technologies to improve and increase crop health and production. The true adoption of blended learning has immense potential and can unlock the agriculture economy to new heights."

According to Dr R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), "The focus of the conference is to strengthen the collaboration among multiple implementing agencies working in the domains of remote learning, digital education and blended education systems. It will also help in establishing synergies with flagship programs such as Digital India and Skill India to accelerate employment of Resilient Agricultural Education System (RAES) under NAHEP."

The conference is organized around the thematic areas including strategies for blended teaching-learning, sustainability in the blended learning ecosystem, building stakeholder capacities to navigate in a blended teaching-learning ecosystem, and contemporary curriculum for agricultural education. NAHEP, which was proposed on a 50:50 cost-sharing basis between the World Bank and the Government of India, was formulated by ICAR with a total cost of US\$ 165 million for five years in the financial year 2017-18. It was undertaken to strengthen the National Agricultural Education System in the country.

New Delhi, March 2023.

The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on **'Blended Learning Ecosystem for Higher Education in Agriculture'** in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR – IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for development of state-of-the-art blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by the Hon'ble Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministries will also be participating along with other global leading institutions like AICTE, IIT, IIRI among others. Eminent speakers addressing the conference include **Dr. Himanshu Pathak**, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, **Dr. R.C. Agrawal**, Deputy Director General Council of Agricultural Research (ICAR), Ministry of Agriculture and Farmers Welfare, Government of India and **Dr. Auguste Tano Kouame**, Country Director, The World Bank among others.

Dr. Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, said, "According to the International Monetary Fund (IMF), agriculture sector in India contributes 17-18% of the Gross Value Added (GVA) of the economy and employs more than 40% of the workforce. Farmers are adopting new technologies to improve and monitor crop health and production. The true adoption of blended learning has immense potential and can unlock the agriculture economy to new heights."

According to **Dr. R.C. Agrawal**, Deputy Director General Council of Agricultural Research (ICAR), "The focus of the conference is to strengthen collaboration among multiple implementing agencies working in the domains of remote learning, digital education and blended education systems. It will also help in establishing synergies with flagship programs such as Digital India and Skill India to accelerate deployment of Resilient Agricultural Education System (RAES) under NAHEP."

The conference is organised around the thematic areas including strategies for blended teaching-learning, technologies for blended learning, sustainability in the blended learning ecosystem, building stakeholder capacities to navigate in a blended teaching-learning ecosystem, and contemporary curriculum for agricultural education. NAHEP, which was proposed on a 50:50 cost sharing basis between the World Bank and the Government of India, was formulated by ICAR with a total cost of US\$ 165 million for five years in the financial year 2017-18. It was undertaken to strengthen the National Agricultural Education System in the country.

भारतीय कृषि अनुसंधान परिषद (आईसीएआर) ने विश्व बैंक के साथ प्रथम अंतरराष्ट्रीय सम्मेलन की घोषणा की

March 13, 2023 by associate

नयी दिल्ली, मार्च, 2023: कृषि क्षेत्र में अनुसंधान एवं शिक्षा के समन्वय, मार्गदर्शन और प्रबंधन के लिए शीर्ष निकाय भारतीय कृषि अनुसंधान परिषद (आईसीएआर) ने विश्व बैंक के साथ मिलकर राष्ट्रीय कृषि उच्च शिक्षा परियोजना (एनएएचईपी) के तहत भारत में "ब्लेंडेड लर्निंग इकोसिस्टम फॉर हायर एजुकेशन इन एग्रिकल्चर" थीम पर प्रथम अंतरराष्ट्रीय सम्मेलन करने की घोषणा की है। आईसीएआर- आईएएसआरआई (इंडियन एग्रिकल्चरल स्टैटिस्टिक्स रिसर्च इंस्टीट्यूट) की मेज़बानी में नयी दिल्ली में 21 से 23 मार्च तक होने वाला यह तीन दिवसीय आयोजन, उच्च कृषि शिक्षा के लिए अत्याधुनिक मिश्रित शिक्षा प्रणाली के विकास की दिशा में गठबंधन को सहयोग प्रदान करने वाला एक बहु साझेदार वैश्विक मंच है।

इस सम्मेलन का उद्देश्य अकादमिक क्षेत्र, उद्योग, सरकार और बहुपक्षीय एवं द्विपक्षीय संगठनों से साझेदारों का एक वैश्विक पारितंत्र विकसित करने की सुविधा प्रदान करना है जहां ये संगठन राष्ट्रीय कृषि उच्च शिक्षा परियोजना (एनएएचईपी) के तहत रेसिलिएंट एग्रिकल्चरल एजुकेशन सिस्टम (आरईएस) के सभी पहलुओं की डिजाइन एवं पूर्ण रूप से क्रियान्वयन की दिशा में महत्वपूर्ण अंतर्दृष्टि उपलब्ध कराएंगे। एनएएचईपी एक लर्निंग मैनेजमेंट सिस्टम, कंटेंट रिपोसिटरी और प्रणालीगत क्षमता निर्माण की परियोजना है। इस सम्मेलन में परिचर्चा के अलावा कृषि एवं मिश्रित ज्ञान के क्षेत्र में विभिन्न सेवाओं और पेशकश की प्रदर्शनी भी लगाई जाएगी।

इस सम्मेलन और प्रदर्शनी का उद्घाटन कृषि एवं कृषक कल्याण मंत्री श्री नरेन्द्र सिंह तोमर द्वारा किया जाएगा। एआईसीटीई, आईआईटी, आईआरआई जैसे वैश्विक संस्थानों के साथ ही विभिन्न मंत्रालय भी इसमें प्रतिभाग करेंगे। इस सम्मेलन के प्रमुख वक्ताओं में कृषि अनुसंधान एवं शिक्षा विभाग (डीएआरई) के सचिव और आईसीएआर के महानिदेशक डॉक्टर हिमांशु पाठक, आईसीएआर के उप महानिदेशक डॉक्टर आरसी अग्रवाल और विश्व बैंक के कंट्री हेड डॉक्टर अगस्ते तानो कोउआमे आदि शामिल हैं।

कृषि अनुसंधान एवं शिक्षा विभाग (डीएआरई) के सचिव और आईसीएआर, कृषि एवं कृषक कल्याण मंत्रालय, भारत सरकार के महानिदेशक डॉक्टर हिमांशु पाठक ने कहा, "अंतरराष्ट्रीय मुद्रा कोष (आईएमएफ) के मुताबिक, भारत में कृषि क्षेत्र, अर्थव्यवस्था में 17-18 प्रतिशत का सकल मूल्य वर्धित योगदान करता है और 40 प्रतिशत से अधिक कार्यबल को इसमें रोजगार मिला हुआ है। किसान फसल स्वास्थ्य और उत्पादन सुधारने एवं उस पर नजर रखने के लिए नयी प्रौद्योगिकियां अपना रहे हैं। मिश्रित सीख को सही मायने में अपनाने में जबरदस्त संभावना है और यह कृषि अर्थव्यवस्था को नयी ऊंचाइयों पर ले जा सकता है।"

Transforming Agriculture for Better Tomorrow: Indian Council of Agricultural Research (ICAR) Announces First International Conference with World Bank

Mar 13, 2023

New Delhi [India], March 13 (ANI/NewsVoir): The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on 'Blended Learning Ecosystem for Higher Education in Agriculture' in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR - IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for the development of a state-of-the-art blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministries will also be participating along with other global leading institutions like AICTE, IIT, IRRI among others. Eminent speakers addressing the conference include Dr Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, Dr R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), Ministry of Agriculture and Farmers Welfare, Government of India and Dr Auguste Tano Kouame, Country Director, The World Bank among others. Dr Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, said, "According to the International Monetary Fund (IMF), agriculture sector in India contributes 17-18 per cent of the Gross Value (GVA) added of the economy and employs more than 40 per cent of the workforce. Farmers are adopting new technologies to improve and monitor crop health and production. The true adoption of blended learning has immense potential and can unlock the agriculture economy to new heights."

According to Dr R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), "The focus of the conference is to strengthen the collaboration among multiple implementing agencies working in the domains of remote learning, digital education and blended education systems. It will also help in establishing synergies with flagship programs such as Digital India and Skill India to accelerate deployment of Resilient Agricultural Education System (RAES) under NAHEP."

The conference is organised around the thematic areas including strategies for blended teaching-learning, technologies for blended learning, sustainability in the blended learning ecosystem, building stakeholder capacities to navigate in a blended teaching-learning ecosystem, and contemporary curriculum for agricultural education. NAHEP, which was proposed on a 50:50 cost-sharing basis between the World Bank and the Government of India, was formulated by ICAR with a total cost of US\$ 165 million for five years in the financial year 2017-18. It was undertaken to strengthen the National Agricultural Education System in the country. This story has been provided by NewsVair. New Delhi, India

- International conference to take place between March 21-23 in New Delhi
- Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare to inaugurate International Conference on the theme of 'Blended Learning Ecosystem for Higher Education in Agriculture'.

The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on '**Blended Learning Ecosystem for Higher Education in Agriculture**' in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR - IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for development of state-of-the-art blended education system for higher agricultural education.

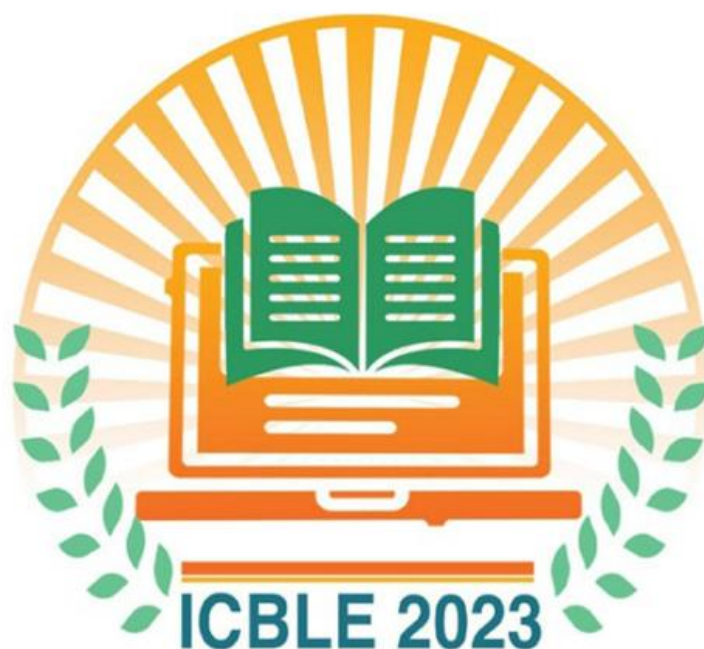

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by the Hon'ble Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministries will also be participating along with other global leading institutions like AICTE, IIT, IIRI among others. Eminent speakers addressing the The conference include Dr. Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, Dr. R. C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), Ministry of Agriculture and Farmers Welfare, Government of India and Dr. Auguste Tano Kouame, Country Director, The World Bank among others.

Transforming Agriculture for Better Tomorrow: Indian Council of Agricultural Research (ICAR) Announces First International Conference with World Bank

Mar 13, 2023

New Delhi [India], March 13 (ANI/NewsVoir): The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on 'Blended Learning Ecosystem for Higher Education in Agriculture' in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR - IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for the development of a state-of-the-art blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministries will also be participating along with other global leading institutions like AICTE, IIT, IRRI among others. Eminent speakers addressing the conference include Dr Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, Dr R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), Ministry of Agriculture and Farmers Welfare, Government of India and Dr Auguste Tano Kouame, Country Director, The World Bank among others. Dr Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, said, "According to the International Monetary Fund (IMF), agriculture sector in India contributes 17-18 per cent of the Gross Value Added (GVA) of the economy and employs more than 40 per cent of the workforce. Farmers are adopting new technologies to improve and monitor crop health and production. The true adoption of blended learning has immense potential and can unlock the agriculture economy to new heights."

According to Dr R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), "The focus of the conference is to strengthen the collaboration among multiple implementing agencies working in the domains of remote learning, digital education and blended education systems. It will also help in establishing synergies with flagship programs such as Digital India and Skill India to accelerate deployment of Resilient Agricultural Education System (RAES) under NAHEP."

The conference is organised around the thematic areas including strategies for blended teaching-learning, technologies for blended learning, sustainability in the blended learning ecosystem, building stakeholder capacities to navigate in a blended teaching-learning ecosystem, and contemporary curriculum for agricultural education. NAHEP, which was proposed on a 50:50 cost-sharing basis between the World Bank and the Government of India, was formulated by ICAR with a total cost of US\$ 165 million for five years in the financial year 2017-18. It was undertaken to strengthen the National Agricultural Education System in the country. This story has been provided by NewsVoir. Transforming Agriculture for Better Tomorrow: Indian Council of Agricultural Research (ICAR) Announces First International Conference with World Bank

Mar 13, 2023

New Delhi [India], March 13 (ANI/NewsVoir): The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on 'Blended Learning Ecosystem for Higher Education in Agriculture' in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR - IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for the development of a state-of-the-art blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministries will also be participating along with other global leading institutions like AICTE, IIT, IIRRI among others. Eminent speakers addressing the conference include Dr Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, Dr R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), Ministry of Agriculture and Farmers Welfare, Government of India and Dr Anguste Tano Kouame, Country Director, The World Bank among others. Dr Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, said, "According to the International Monetary Fund (IMF), agriculture sector in India contributes 17-18 per cent of the Gross Value (GVA) added of the economy and employs more than 40 per cent of the workforce. Farmers are adopting new technologies to improve and monitor crop health and production. The true adoption of blended learning has immense potential and can unlock the agriculture economy to new heights."

According to Dr R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), "The focus of the conference is to strengthen the collaboration among multiple implementing agencies working in the domains of remote learning, digital education and blended education systems. It will also help in establishing synergies with flagship programs such as Digital India and Skill India to accelerate deployment of Resilient Agricultural Education System (RAES) under NAHEP"

The conference is organised around the thematic areas including strategies for blended teaching-learning, technologies for blended learning, sustainability in the blended learning ecosystem, building stakeholder capacities to navigate in a blended teaching-learning ecosystem, and contemporary curriculum for agricultural education. NAHEP, which was proposed on a 50:50 cost-sharing basis between the World Bank and the Government of India, was formulated by ICAR with a total cost of US\$ 165 million for five years in the financial year 2017-18. It was undertaken to strengthen the National Agricultural Education System in the country.

International conference to take place between March 21-23 in New Delhi

Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare to inaugurate International Conference on the theme of 'Blended Learning Ecosystem for Higher Education in Agriculture'.

The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on **Blended Learning Ecosystem for Higher Education in Agriculture** in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR – IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for development of state-of-the-art blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by the Hon'ble Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministries will also be participating along with other global leading institutions like AICTE, IIT, IRRI among others. Eminent speakers addressing the The conference include Dr. Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, Dr. R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), Ministry of Agriculture and Farmers Welfare, Government of India and Dr. Auguste Tano Kouame, Country Director, The World Bank among others.

International conference to take place between March 21-23 in New Delhi

Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare to inaugurate International Conference on the theme of 'Blended Learning Ecosystem for Higher Education in Agriculture'.

The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on **Blended Learning Ecosystem for Higher Education in Agriculture** in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR - IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for development of state-of-the-art blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by the Hon'ble Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministries will also be participating along with other global leading institutions like AICTE, IIT, IRRRI among others. Eminent speakers addressing the The conference include Dr. Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, Dr. R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), Ministry of Agriculture and Farmers Welfare, Government of India and Dr. Auguste Tano Kouame, Country Director, The World Bank among others.

Dr. Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, said, "According to the International Monetary Fund (IMF), agriculture sector in India contributes 17-18% of the Gross Value (GVA) added of the economy and employs more than 40% of the workforce. Farmers are adopting new technologies to improve and monitor crop health and production. The true adoption of blended learning has immense potential and can unlock the agriculture economy to new heights."

According to Dr. R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), "The focus of the conference is to strengthen collaboration among multiple implementing agencies working in the domains of remote learning, digital education and blended education systems. It will also help in establishing synergies with flagship programs such as Digital India and Skill India to accelerate deployment of Resilient Agricultural Education System (RAES) under NAHEP."

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministries will also be participating along with other global leading institutions like AICTE, IIT, IIRI among others. Eminent speakers addressing the conference include Dr Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, Dr R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), Ministry of Agriculture and Farmers Welfare, Government of India and Dr Auguste Tano Kouame, Country Director, The World Bank among others.

Dr Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, said, "According to the International Monetary Fund (IMF), agriculture sector in India contributes 17-18 per cent of the Gross Value (GVA) added of the economy and employs more than 40 per cent of the workforce. Farmers are adopting new technologies to improve and monitor crop health and production. The true adoption of blended learning has immense potential and can unlock the agriculture economy to new heights."

According to Dr R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), "The focus of the conference is to strengthen the collaboration among multiple implementing agencies working in the domains of remote learning, digital education and blended education systems. It will also help in establishing synergies with flagship programs such as Digital India and Skill India to accelerate deployment of Resilient Agricultural Education System (RAES) under NAHEP."

The conference is organised around the thematic areas including strategies for blended teaching-learning, technologies for blended learning, sustainability in the blended learning ecosystem, building stakeholder capacities to navigate in a blended teaching-learning ecosystem, and contemporary curriculum for agricultural education. NAHEP, which was proposed on a 50:50 cost-sharing basis between the World Bank and the Government of India, was formulated by ICAR with a total cost of US\$ 165 million for five years in the financial year 2017-18. It was undertaken to strengthen the National Agricultural Education System in the country.

New Delhi, India

International conference to take place between March 21-23 in New Delhi

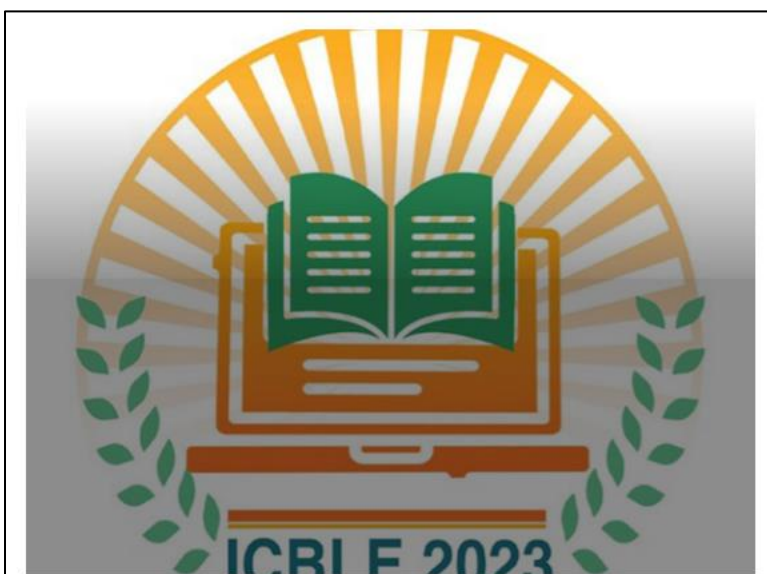

Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare to inaugurate International Conference on the theme of 'Blended Learning Ecosystem for Higher Education in Agriculture'.

The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on **'Blended Learning Ecosystem for Higher Education in Agriculture'** in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR - IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for development of state-of-the-art blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by the Hon'ble Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministries will also be participating along with other global leading institutions like AICTE, IIT, IRRI among others. Eminent speakers addressing the The conference include Dr. Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, Dr. R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), Ministry of Agriculture and Farmers Welfare, Government of India and Dr. Auguste Tano Kouame, Country Director, The World Bank among others.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by the Hon'ble Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministries will also be participating along with other global leading institutions like AICTE, IIT, IIRRI among others. Eminent speakers addressing the The conference include Dr. Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, Dr. R. C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), Ministry of Agriculture and Farmers Welfare, Government of India and Dr. Auguste Tano Kouame, Country Director,

The World Bank among others.

Dr. Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, said, "According to the International Monetary Fund (IMF), agriculture sector in India contributes 17-18% of the Gross Value (GVA) added of the economy and employs more than 40% of the workforce. Farmers are adopting new technologies to improve and monitor crop health and production. The true adoption of blended learning has immense potential and can unlock the agriculture economy to new heights."

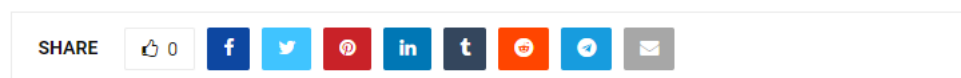

According to **Dr. R. C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR)**, "The focus of the conference is to strengthen collaboration among multiple implementing agencies working in the domains of remote learning, digital education and blended education systems. It will also help in establishing synergies with flagship programs such as Digital India and Skill India to accelerate deployment of Resilient Agricultural Education System (RAES) under NAHEP."

The conference is organised around the thematic areas including strategies for blended teaching-learning, technologies for blended learning, sustainability in the blended learning ecosystem, building stakeholder capacities to navigate in a blended teaching-learning ecosystem, and contemporary curriculum for agricultural education. NAHEP, which was proposed on a 50:50 cost sharing basis between the World Bank and the Government of India, was formulated by ICAR with a total cost of US\$ 165 million for five years in the financial year 2017-18. It was undertaken to strengthen the National Agricultural Education System in the country.

भारतीय कृषि अनुसंधान परिषद (आईसीएआर) ने विश्व बैंक के साथ प्रथम अंतरराष्ट्रीय सम्मेलन की घोषणा की

Updated on 15-03-2023 02:12 AM

नयीदिल्ली : कृषि क्षेत्र में अनुसंधान एवं शिक्षा के समन्वय, मार्गदर्शन और प्रबंधन के लिए शीर्ष निकाय भारतीय कृषि अनुसंधान परिषद (आईसीएआर) ने विश्व बैंक के साथ मिलकर राष्ट्रीय कृषि उच्च शिक्षा परियोजना (एनएचईपी) के तहत भारत में लैडेड लर्निंग इको सिस्टम फॉर हायर एजुकेशन इन एग्रिकल्चर थ्रीम पर प्रथम अंतर राष्ट्रीय सम्मेलन करने की घोषणा की है। आईसीएआर-आईएसआरआई (इंडियन एग्रिकल्चर लस्टैटिस टिक्स रिसर्च इंस्टीट्यूट) की मेज़बानी में नयीदिल्ली में 21 से 23 मार्च तक होने वाला यह तीन दिवसीय आयोजन, उच्च कृषि शिक्षा के लिए अत्याधुनिक मिश्रित

शिक्षा प्रणाली के विकास की दिशा में गठबंधन को सहयोग प्रदान करने वाला एक बहुसाझीदार वैश्विक मंच है।

इस सम्मेलन का उद्देश्य अकादमिक क्षेत्र, उद्योग, सरकार और बहुपक्षीय एवं द्विपक्षीय संगठनों से साझीदारों का एक वैश्विक पारितंत्र विकसित करने की सुविधा प्रदान करना है जहां ये संगठन राष्ट्रीय कृषि उच्च शिक्षा परियोजना (एनएचईपी) के तहत रेसिलिएंट एग्रिकल्चरल एजुकेशन सिस्टम (आरईएस) के सभी पहलुओं की डिजाइन एवं पूर्ण रूप से क्रियान्वयन की दिशा में महत्वपूर्ण अंतर्दृष्टि उपलब्ध कराएंगे। एनएचईपी एक लर्निंग मैनेजमेंट सिस्टम, कंटेंटरिपोसिटरी और प्रणालीगत क्षमता निर्माण की परियोजना है। इस सम्मेलन में परिचर्चा के अलावा कृषि एवं मिश्रित ज्ञान के क्षेत्र में विभिन्न सेवाओं और पेशकश की प्रदर्शनी भी लगाई जाएगी।

इस सम्मेलन और प्रदर्शनी का उद्घाटन कृषि एवं कृषक कल्याण मंत्री नरेन्द्र सिंह तोमर द्वारा किया जाएगा। एआईसीटीई, आईआईटी, आईआरआई जैसे वैश्विक संस्थानों के साथ ही विभिन्न मंत्रालय भी इस में प्रति भाग करेंगे। इस सम्मेलन के प्रमुख वक्ताओं में कृषि अनुसंधान एवं शिक्षा विभाग (डीएआरई) के सचिव और आईसीएआर के महानिदेशक डॉक्टर हिमांशु पाठक, आईसीएआर के उप

Transforming Agriculture for Better Tomorrow: Indian Council of Agricultural Research (ICAR) Announces First International Conference with World Bank

Mar 13, 2023 17:44 PM

New Delhi, India

- International conference to take place between March 21-23 in New Delhi
- Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare to inaugurate International Conference on the theme of 'Blended Learning Ecosystem for Higher Education in Agriculture'.

The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on '**Blended Learning Ecosystem for Higher Education in Agriculture**' in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR - IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for development of state-of-the-art blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the

ICAR Transforming Agriculture for Better Tomorrow: Indian Council of Agricultural Research (ICAR) Announces First International Conference with World Bank

New Delhi [India], March 13 (ANI News/ANI): The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on 'Blended Learning Ecosystem for Higher Education in Agriculture' in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR - IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for the development of a state-of-the-art Blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministers will also be participating along with other global leading institutions like AJCTE, IIT, IITJ among others. Eminent speakers addressing the conference include Dr Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, Dr R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), Ministry of Agriculture and Farmers Welfare, Government of India and Dr Augustine Taso Kouame, Country Director, The World Bank among others.

Dr Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, said, "According to the International Monetary Fund (IMF), agriculture sector in India contributes 17-18 per cent of the Gross Value Added (GVA) added to the economy and employs more than 40 per cent of the workforce. Farmers are adopting new technologies to improve and increase crop health and production. The true adoption of blended learning has immense potential and can unlock the agriculture economy to new heights."

According to Dr R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), "The focus of the conference is to strengthen the collaboration among multiple implementing agencies working in the domains of remote learning, digital education and blended education system. It will also help in establishing synergies with flagship programs such as Digital India and Skill India to accelerate employment of Resilient Agricultural Education System (RAES) under NAHEP."

The conference is organized around the thematic areas including strategies for Blended teaching-learning, technologies for Blended learning, sustainability in the blended learning ecosystem, building stakeholder capacities to navigate in a blended teaching-learning ecosystem, and contemporary curriculum for agricultural education. NAHEP which was proposed on a 50:50 cost-sharing basis between the World Bank and the Government of India, was formulated by ICAR with a total cost of US\$ 165 million for five years in the financial year 2017-18. It was undertaken to strengthen the National Agricultural Education System in the country.

- > Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare to inaugurate International Conference on the theme of 'Blended Learning Ecosystem for Higher Education in Agriculture'.

The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on **'Blended Learning Ecosystem for Higher Education in Agriculture'** in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR - IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for development of state-of-the-art blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale Agricultural Education System (RAES) under National Agricultural Higher Education Project, content repository, and system-wide capacity building. Apart from the engaging discussions on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by the Hon'ble Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Other ministries will also be participating along with other global leading institutions like

Transforming Agriculture for Better Tomorrow: Indian Council of Agricultural Research (ICAR) Announces First International Conference with World Bank

Mar 13, 2023

New Delhi [India], March 13 (ANI/NewsVoir): The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on 'Blended Learning Ecosystem for Higher Education in Agriculture' in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR - IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for the development of a state-of-the-art blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministries will also be participating along with other global leading institutions like AICTE, IIT, IRRI among others. Eminent speakers addressing the conference include Dr Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, Dr R. C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), Ministry of Agriculture and Farmers Welfare, Government of India and Dr Auguste Tano Kouame, Country Director, The World Bank among others. Dr Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, said, "According to the International Monetary Fund (IMF), agriculture sector in India contributes 17-18 per cent of the Gross Value Added (GVA) of the economy and employs more than 40 per cent of the workforce. Farmers are adopting new technologies to improve and monitor crop health and production. The true adoption of blended learning has immense potential and can unlock the agriculture economy to new heights."

According to Dr R. C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), "The focus of the conference is to strengthen the collaboration among multiple implementing agencies working in the domains of remote learning, digital education and blended education systems. It will also help in establishing synergies with flagship programs such as Digital India and Skill India to accelerate deployment of Resilient Agricultural Education System (RAES) under NAHEP."

The conference is organised around the thematic areas including strategies for blended teaching-learning, technologies for blended learning, sustainability in the blended learning ecosystem, building stakeholder capacities to navigate in a blended teaching-learning ecosystem, and contemporary curriculum for agricultural education. NAHEP, which was proposed on a 50:50 cost-sharing basis between the World Bank and the Government of India, was formulated by ICAR with a total cost of US\$ 165 million for five years in the financial year 2017-18. It was undertaken to strengthen the National Agricultural Education System in the country. This story has been provided by NewsVoir. New Delhi [India], March 13 (ANI/NewsVoir): The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on 'Blended Learning Ecosystem for Higher Education in Agriculture' in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR - IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for the development of a state-of-the-art blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning. The conference and exhibition will be inaugurated by Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministries will also be participating along

Transforming Agriculture for Better Tomorrow: Indian Council of Agricultural Research (ICAR) Announces First International Conference with World Bank

Mar 13, 2023

New Delhi [India], March 13 (ANI/NewsVoir): The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on 'Blended Learning Ecosystem for Higher Education in Agriculture' in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR - IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for the development of a state-of-the-art blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministries will also be participating along with other global leading institutions like AICTE, IIT, IIRRI among others. Eminent speakers addressing the conference include Dr Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, Dr R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), Ministry of Agriculture and Farmers Welfare, Government of India and Dr Auguste Tano Koussane, Country Director, The World Bank among others. Dr Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, said, "According to the International Monetary Fund (IMF), agriculture sector in India contributes 17-18 per cent of the Gross Value (GVA) added of the economy and employs more than 40 per cent of the workforce. Farmers are adopting new technologies to improve and monitor crop health and production. The true adoption of blended learning has immense potential and can unlock the agriculture economy to new heights."

According to Dr R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), "The focus of the conference is to strengthen the collaboration among multiple implementing agencies working in the domains of remote learning, digital education and blended education systems. It will also help in establishing synergies with flagship programs such as Digital India and Skill India to accelerate deployment of Resilient Agricultural Education System (RAES) under NAHEP."

The conference is organised around the thematic areas including strategies for blended teaching-learning, technologies for blended learning, sustainability in the blended learning ecosystem, building stakeholder capacities to navigate in a blended teaching-learning ecosystem, and contemporary curriculum for agricultural education. NAHEP, which was proposed on a 50:50 cost-sharing basis between the World Bank and the Government of India, was formulated by ICAR with a total cost of US\$ 165 million for five years in the financial year 2017-18. It was undertaken to strengthen the National Agricultural Education System in the country.

- > Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare to inaugurate International Conference on the theme of 'Blended Learning Ecosystem for Higher Education in Agriculture'.

The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on '**Blended Learning Ecosystem for Higher Education in Agriculture**' in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR - IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for development of state-of-the-art blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale Agricultural Education System (RAES) under National Agricultural Higher Education Project, content repository, and system-wide capacity building. Apart from the engaging discussions on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by the Hon'ble Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Other ministries will also be participating along with other global leading institutions like

Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare to inaugurate International Conference on the theme of 'Blended Learning Ecosystem for Higher Education in Agriculture'.

The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on **'Blended Learning Ecosystem for Higher Education in Agriculture'** in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR - IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for development of state-of-the-art blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale Agricultural Education System (RAES) under National Agricultural Higher Education Project content repository, and system-wide capacity building. Apart from the engaging discussions on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by the Hon'ble Shri Narendra Singh Tomar. Other ministries will also be participating along with other global leading institutions like

Transforming Agriculture for Better Tomorrow: Indian Council of Agricultural Research (ICAR) Announces First International Conference with World Bank

at Mar 13, 2023

New Delhi [India], March 13 (ANI/NewsVour): The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on 'Blended Learning Ecosystem for Higher Education in Agriculture' in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR - IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for the development of a state-of-the-art blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministries will also be participating along with other global leading institutions like AICTE, IIT, IIRI among others. Eminent speakers addressing the conference include Dr Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, Dr R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), Ministry of Agriculture and Farmers Welfare, Government of India and Dr Auguste Tano Kouame, Country Director, The World Bank among others.

Dr Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, said, "According to the International Monetary Fund (IMF), agriculture sector in India contributes 17-18 per cent of the Gross Value Added (GVA) of the economy and employs more than 40 per cent of the workforce. Farmers are adopting new technologies to improve and monitor crop health and production. The true adoption of blended learning has immense potential and can unlock the agriculture economy to new heights."

According to Dr R.C. Agrawal, Deputy Director General (Agricultural Education), Indian Council of Agricultural Research (ICAR), "The focus of the conference is to strengthen the collaboration among multiple implementing agencies working in the domains of remote learning, digital education and blended education systems. It will also help in establishing synergies with flagship programs such as Digital India and Skill India to accelerate deployment of Resilient Agricultural Education System (RAES) under NAHEP."

The conference is organized around the thematic areas including strategies for blended teaching-learning, technologies for blended learning, sustainability in the blended learning ecosystem, building stakeholder capacities to navigate in a blended teaching-learning ecosystem, and contemporary curriculum for agricultural education. NAHEP, which was proposed on a 50:50 cost-sharing basis between the World Bank and the Government of India, was formulated by ICAR with a total cost of US\$ 165 million for five years in the financial year 2017-18. It was undertaken to strengthen the National Agricultural Education System in the country.

ICAR & World Bank host 'Int'l Conference on Blended Learning Ecosystem for Higher Education in Agriculture'

NEW DELHI: The International Conference on Blended Learning Ecosystem for Higher Education in Agriculture 2023, hosted jointly by The Indian Council of Agricultural Research (ICAR) and the World Bank from March 21-23 as a part of the National Agricultural Higher Education Project's (NAHEP) Resilient Agricultural Education System (RAES) development initiative has more than ten academic partners from around the world representing over ten countries deliberating on the best strategies in blended teaching and learning in agricultural education.

A Blended Learning Plat-

Left to right - Dr Himanshu Pathak, Secretary Department of Agriculture Research and Education and Director General (ICAR), Narendra Singh Tomar, Union Minister of Agriculture and Farmers Welfare, Dr R S Paroda, Former Secretary, DARE & Director General, ICAR and Chairman, TAAAS, Dr R C Agrawal, Deputy Director General (Agricultural Education) of ICAR and Rajendra Prasad, Director, ICAR-Indian Agricultural Statistics Research Institute (IASRI)

form focused on improving Agricultural Higher Education Digital Infrastructure across Institutions (A-HEIs) was

unveiled by ICAR and World Bank to strengthen deployment of immersive technologies such as Augmented Reality (AR)/ Virtual Reality (VR) Experiences and Virtual Classrooms.

Undertaken to strengthen the National Agricultural Education System in the country, NAHEP is a five-year project initiated in 2018 with equal contribution of \$82.5 million (about Rs 600 crore) each from the World Bank and the central government.

The World Bank loan is to be repaid over 19 years after a grace period of five years. The purpose of NAHEP is to transform agricultural higher education. The Blended Learning

Platform is part of the project.

About 1,000 students and 450 faculty members from 20 agricultural universities have completed international training at 89 institutes in 27 countries in 160 subjects under NAHEP till date.

More than 900 experiential learning units where students can get hands-on experience for six months and become proficient in subjects as diverse as genomics and tea processing have been set up at various universities.

The digital content repository has more than 160 digitised courses and faculty members have uploaded more than 10,000 videos. **MP05T**

Tomar launches blended learning platform for higher edu in agri

PTI ■ NEW DELHI

Agriculture Minister Narendra Singh Tomar on Tuesday launched a blended learning platform for higher education in agriculture, developed by the Indian Council of Agricultural Research (ICAR) as part of a World Bank-funded project.

ICAR has developed the blended learning ecosystem as part of the five-year National Agricultural Higher Education Project (NAHEP) concluding this year. India and the World Bank have contributed USD 82.5 million (about Rs 600 crore) each for this project that aimed at strengthening the national agriculture education system in the country.

"The blended learning is an extension of Krishi Megh. I believe it will strengthen the foundation of Krishi Megh and

will help in meeting the requirement of digital learning," Tomar said at the launch of this platform at the three-day international conference here.

Krishi Megh, which is a data recovery centre of ICAR, enables the farmers, researchers, students and policymakers to be updated with latest information regarding agriculture and research. For India to become a developed nation by 2047, the minister said the blended learning ecosystem will play a key role in this journey.

Blended learning is a combination of offline and online learning in a way that one complements the other.

ICAR Director General Himanshu Pathak said, "I believe the World Bank will further promote research and education. ...To address the challenges of climate change and low productiv-

ity, education will play a crucial role. Our young students as well as scientists need to be equipped to combat all problems and experiment to learn new things which can be done through a blended learning ecosystem."

ICAR Deputy Director General (Agricultural Education) R C Agrawal said it has been the ICAR's endeavour to enhance agricultural higher education in alignment with guidance from the National Education Policy 2020 and the UN-SDGs.

have been digitised, he added.

The NAHEP has achieved "almost all targets" and significantly exceeded more than half of them. "The quality of students coming in is better, in that they have higher cut-off scores, the graduates have higher placement rates and the research is more effective," Bekzod Shamsiev, Senior Agriculture Economist at The World Bank, said.

The next challenge is to transform digital learning into digital agriculture. Agricultural universities have an important role to play in promoting precision farming, environmental monitoring and automation of agricultural processes, he said.

It should lead to better trading systems and market information, efficient supply chain logistics and provide information for better policy making and regulation, Shamsiev added.

The digital content repository has more than 160 digitised courses and faculty

members have uploaded more than 10,000 videos. Addressing the Conference, Chief Guest and Hon'ble Union Minister of Agriculture and Farmers Welfare Shri Narendra Singh Tomar stated, "Since the past five years, the ICAR has reached a new height. When we launched KrishiMegh nobody knew it would act as a gamechanger during the pandemic as it did not let India's education system be adversely affected as other countries. I believe even in the future; it will help us in achieving many new accolades. Blended learning and agricultural sector will help India in becoming a developed nation status by 2047. Agriculture, which is the backbone of India's economy, can thrive with limited funding due to technology and knowledge. In line with 'sabkasaath, sabkavikas' we make policies to ensure that people at the grassroot level benefit from them."

ICAR calls for blended learning ecosystem in agriculture

Chennai, Mar 25: The International Conference on Blended Learning Ecosystem for Higher Education in Agriculture 2023, hosted jointly by The Indian Council of Agricultural Research (ICAR) and the World Bank from March 21-23 as a part of the National Agricultural Higher Education Project's (NAHEP) Resilient Agricultural Education System (RAES) development initiative has more than ten academic partners from around the world representing over ten countries deliberating on the best strategies in blended teaching and learning in agricultural education.

A Blended Learning Platform focused on improving Digital Infrastructure across Agricultural Higher Education Institutions (A-HEIs) was unveiled by ICAR and World Bank to strengthen deployment of immersive technologies such as Augmented Reality (AR)/Virtual Reality (VR) Experiences and Virtual Classrooms.

About 1,000 students and 450 faculty members from 20 agricultural universities have completed international training at 89 institutes in 27 countries in 160 subjects under NAHEP till date. More than 900 experiential learning units where students can get hands-on experience for six months and become proficient in subjects as diverse as genomics and tea processing have been set up at various universities. The digital content repository has more than 160 digitised courses and faculty members have uploaded more than 10,000 videos.

Union Minister of Agriculture and Farmers Welfare Narendra Singh Tomar stated, " Blended learning and agricultural sector will help India in becoming a developed nation status by 2047. Agriculture, which is the backbone of India's economy, can thrive with limited funding due to technology and knowledge. In line with 'sabka saath, sabka vikas' we make policies to ensure that people at the grassroot level benefit from them."

International Conference Hosted by ICAR and World Bank under NAHEP

New Delhi, March 23: The International Conference on Blended Learning Ecosystem for Higher Education in Agriculture 2023, hosted jointly by The Indian Council of Agricultural Research (ICAR) and the World Bank from March 21-23 as a part of the National Agricultural Higher Education Project's (NAHEP) Resilient Agricultural Education System (RAES) development initiative has more than ten academic partners from around the world representing over ten countries deliberating on the best strategies in blended teaching and learning in agricultural education. A Blended Learning Platform focused on improving Digital Infrastructure across Agricultural Higher Education Institutions (A-HEIs) was unveiled by ICAR and World Bank to strengthen deployment of immersive technologies such as Augmented Reality (AR)/ Virtual Reality (VR) Experiences and Virtual Classrooms.

Undertaken to

strengthen the National Agricultural Education System in the country, NAHEP is a five-year project initiated in 2018 with equal contribution of \$82.5 million (about Rs 600 crore) each from the World Bank and the central government. The World Bank loan is to be repaid over 19 years after a grace period of five years. The purpose of NAHEP is to transform agricultural higher education. The Blended Learning Platform is part of the project.

About 1,000 students and 450 faculty members from 20 agricultural universities have completed international training at 89 institutes in 27 countries in 160 subjects under NAHEP till date. More than 900 experiential learning units where students can get hands-on experience for six months and become proficient in subjects as diverse as genomics and tea processing have been set up at various universities. The digital content repository has more than 160

digitised courses and faculty members have uploaded more than 10,000 videos.

Addressing the Conference, Chief Guest and Hon'ble Union Minister of Agriculture and Farmers Welfare Shri Narendra Singh Tomar stated, "Since the past five years, the ICAR has reached a new height. When we launched Krishi Megh nobody knew it would act as a gamechanger during the pandemic as it did not let India's education system be as adversely affected as other countries. I believe even in the future; it will help us in achieving many new accolades. Blended learning and ag-

ricultural sector will help India in becoming a developed nation status by 2047. Agriculture, which is the backbone of India's economy, can thrive with limited funding due to technology and knowledge. In line with 'sabka saath, sabka vikas' we make policies to ensure that people at the grassroot level benefit from them."

"Dr Himanshu Pathak, Secretary Department of Agriculture Research and Education (DARE) and Director General (ICAR) said, "I would like to thank the World Bank for being a committed partner to the Government of India. I believe it will further promote research and education.

International Conference Hosted by ICAR and World Bank under NAHEP calls for creating a Blended Learning Ecosystem in Agriculture

Blended Learning Platform aimed at improving Digital Infrastructure across Agricultural Higher Education Institutions (A-HEIs) unveiled by ICAR and World Bank

Focus on deployment of immersive technologies such as Augmented Reality (AR)/Virtual Reality (VR) Experiences and Virtual Classrooms

New Delhi, 21st March 2023. The International Conference on Blended Learning Ecosystem for Higher Education in Agriculture 2023, hosted jointly by The Indian Council of Agricultural Research (ICAR) and the World Bank from March 21-23 as a part of the National Agricultural Higher Education Project's (NAHEP) Resilient Agricultural Education System (RAES) development initiative has more than ten academic partners from around the world representing over ten countries deliberating on the best strategies in blended teaching and learning in agricultural education. A Blended Learning Platform focused on improving Digital Infrastructure across Agricultural Higher Education Institutions (A-HEIs) was unveiled by ICAR and World Bank to strengthen deployment of immersive technologies such as Augmented Reality (AR)/Virtual Reality (VR) Experiences and Virtual Classrooms.

Undertaken to strengthen the National Agricultural Education System in the country, NAHEP is a five-year project initiated in 2018 with equal contribution of \$82.5 million (about Rs 600 crore) each from the World Bank and the central government. The World Bank loan is to be repaid over 19 years after a grace period of five years. The purpose of NAHEP is to transform agricultural higher education. The Blended Learning Platform is part of the project.

About 1,000 students and 450 faculty members from 20 agricultural universities have completed international training at 89 institutes in 27 countries in 160 subjects under NAHEP till date. More than 900 experiential learning units where students can get hands-on experience for six months and become proficient in subjects as diverse as genomics and tea processing have been set up at various universities. The digital content repository has more than 160 digitised courses and faculty members have uploaded more than 10,000 videos.

Addressing the Conference, Chief Guest and Hon'ble Union Minister of Agriculture and Farmers Welfare Shri Narendra Singh Tomar stated, "Since the past five years, the ICAR has reached a new height. When we launched Krishi Megh nobody knew it would act as a gamechanger during the pandemic as it did not let India's education system be as adversely affected as other countries. I believe even in the future; it will help us in achieving many new accolades. Blended learning and agricultural sector will help India in becoming a developed nation status by 2047.

Agriculture, which is the backbone of India's economy, can thrive with limited funding due to technology and knowledge. In line with 'sabka saath, sabka vikas' we make policies to ensure that people at the grassroot level benefit from them."

"Dr Himanshu Pathak, Secretary Department of Agriculture Research and Education (DARE) and Director General (ICAR) said, "I would like to thank the World Bank for being a committed partner to the Government of India. I believe it will further promote research and education. By 2047, India will become a developed nation as per our Hon'ble PM Narendra Modi's vision. To address the challenges of climate change and low productivity, education will play a crucial role. Our young students as well as scientists need to be equipped to combat all problems and experiment to learn new things which can be done through a blended learning ecosystem."

Dr RC Agrawal, Deputy Director General (Agricultural Education) of the Indian Council of Agricultural Research (ICAR), "It has been our endeavour to enhance agricultural higher education in alignment with guidance from NEP 2020 and the UN-SDGs. All agricultural universities have access to e-learning and e-governance applications; they all have smart classrooms, video conferencing facilities and virtual reality experience labs. Eighty-six percent of agricultural universities have academic management systems; 90 percent have wi-fi on campus and 92 percent have high-speed internet connectivity. The e-content, using virtual and augmented reality, is highly immersive. Assessments, including short and long answer type questions have been digitised."

"The National Agriculture Higher Education Project (NAHEP) has achieved "almost all targets" and significantly exceeded more than half of them. The quality of students coming in is better, in that they have higher cut-off scores, the graduates have higher placement rates and the research is more effective," said Dr. Bekzod Shamsiev, Senior Agriculture Economist, The World Bank. "The next challenge is to transform digital learning into digital agriculture. Agricultural Universities have an important role to play in promoting precision farming, environmental monitoring and automation of agricultural processes. It should lead to better trading systems and market information, efficient supply chain logistics and provide information for better policy making and regulation," Dr. Shamsiev added.

विकसित देश बनने के लिए कृषि शिक्षा पर देना होगा और जोर : तोमर

जागरण ब्यूरो, नई दिल्ली

पीएम नरेन्द्र मोदी के अनुसार, वर्ष 2047 तक भारत को एक विकसित देश बनाने में कृषि क्षेत्र की बड़ी भूमिका होगी। इसके लिए कृषि क्षेत्र में उच्च शिक्षा पर खास तौर पर ध्यान देना होगा। इस काम में विश्व बैंक पहले से ही भारतीय कृषि अनुसंधान परिषद (आइसीएआर) के साथ मिलकर एक परियोजना एनएएचईपी चला रहा है, जिसे आगे और विस्तार दिए जाने की तैयारी है। विश्व बैंक व आइसीएआर की मंशा है कि भारत विश्व स्तर पर कृषि क्षेत्र में उच्च शिक्षा उपलब्ध कराने वाला एक प्रमुख हब बने। इस संबंध में आइसीएआर व विश्व बैंक की मदद से तीन दिवसीय सेमिनार का उद्घाटन केंद्रीय कृषि व किसान कल्याण मंत्री नरेन्द्र सिंह तोमर ने किया। इस अवसर पर तोमर ने कहा कि जिस तरह की चुनौतियां कृषि क्षेत्र में पैदा हो रही हैं, उससे पार पाने के लिए कृषि में उच्च शिक्षा पर और ज्यादा ध्यान देना होगा। तभी भारत एक विकसित देश बन पाएगा।

आइसीएआर व विश्व बैंक की मदद से तीन दिवसीय सेमिनार का केंद्रीय मंत्री ने किया उद्घाटन

नरेन्द्र सिंह तोमर।

फाइल

राष्ट्रीय कृषि उच्च शिक्षा परियोजना (एनएएचईपी) के बारे में उन्होंने कहा कि पिछले पांच वर्षों में इसकी उपलब्धि को देखते हुए इससे और ज्यादा उम्मीदें बढ़ गई हैं। इस अवसर पर विश्व बैंक के सीनियर कृषि विज्ञानी बेकजोद शामसोव ने कहा कि एनएएचईपी के तहत सभी लक्ष्यों को पूरा किया गया है। अब कृषि सेक्टर में डिजिटल के समावेश पर ज्यादा जोर दिया जाएगा।

2047 तक विकसित देशों की अग्रिम पंक्ति में खड़ा होगा भारत : नरेंद्र सिंह तोमर

नगरण संवाददाता
केंद्रीय कृषि मंत्री

नरेंद्र सिंह तोमर ने कहा कि देश की आजादी के अमृत काल के दौरान हमारी सोच, हमारी चिंता, हमारी गति उन्नत बनने की दिशा में होनी चाहिए। 2047 में जब हमारा आजादी के सौ वर्ष पूरे हो जाएंगे, तब हम विकसित देशों की अग्रिम पंक्ति में खड़े होंगे। इस लक्ष्य को प्राप्त करने के लिए शिक्षा का महत्वपूर्ण योगदान होगा। कृषि शिक्षा

परिणामी हितों :
नरेंद्र सिंह तोमर ने कहा कि देश की आजादी के अमृत काल के दौरान हमारी सोच, हमारी चिंता, हमारी गति उन्नत बनने की दिशा में होनी चाहिए। 2047 में जब हमारा आजादी के सौ वर्ष पूरे हो जाएंगे, तब हम विकसित देशों की अग्रिम पंक्ति में खड़े होंगे। इस लक्ष्य को प्राप्त करने के लिए शिक्षा का महत्वपूर्ण योगदान होगा। कृषि शिक्षा

● कृषि उच्च शिक्षा पर वीम डियरीय अंतरराष्ट्रीय सम्मेलन शुरू
के एस्ते विकसित देशों के अग्रिम पंक्ति में खड़े होने के लक्ष्य प्राप्त करने के लिए हमारे यहाँ में ब्लैडिड लॉनिंग (एरो शिक्षा प्रणाली) विसर्ग आम्लाइन व आम्लाइन टैनी माथर्म का कृषालता से इस्तेमाल है। वर बहुत योगदान होगा। केंद्रीय कृषि मंत्री ने कहा कि भारत में कृषि क्षेत्र से जुड़े उच्च शिक्षा में ब्लैडिड लॉनिंग इको सिस्टम पर आयोजित तीन दिवसीय अंतरराष्ट्रीय सम्मेलन को संबोधित कर रहे हैं। परिसर व विषय

● देश-विदेश के विद्वानों व कृषि जगत से जुड़े लोग कर रहे शिरकाव
बैंक के सहयोग से आयोजित हो रहे इस सम्मेलन में विश्व बैंक में दुनिया की कृषि प्रबंधक डा. ओलिवर ब्रेट, भारतीय कृषि अनुसंधान परिषद के महानिदेशक डा. हिमांशु पाठक सहित कई लोग उपस्थित हैं। केंद्रीय कृषि मंत्री ने सम्मेलन के उद्घाटन सत्र को संबोधित करते हुए कहा कि कृषि भारतीय अर्थव्यवस्था की रीढ़ है। इसे मजबूत करना जरूरी है। जलवायु परिवर्तन, प्रदूषण सहित अनेक कारण भाविष्य में कृषि क्षेत्र के लिए चुनौतियाँ बनेंगी। इस

चुनौतियों से पार पाने के लिए ज्ञान व तकनीक से लैस होना जरूरी है। यदि सही तकनीक का ज्ञान हो तो हम कम सुविधाओं में भी अच्छी पैदावार ले सकते हैं। उन्होंने कहा कि पाँच वर्ष पहले विश्व बैंक के सहयोग से राष्ट्रीय कृषि उच्च शिक्षा परिवर्तन (एनएचएडएच) शुरू की गई थी। अगस्त 2020 में हम लोगों ने कृषि मंत्रालय की शीर्षक की थी। तब किसी को क्या इस बात का अंदाजा था कि कोरोना महामारी के दौरान कृषि मंत्रालय (इसके माध्यम से किसानों, शोधकर्ताओं, छात्रों और नीति निर्माताओं को कृषि एवं अनुसंधान के बारे में अपडेटेड जानकारी मुहैया

कराया जाता है।) इतना उपयोगी साबित होगा। कोरोना महामारी के दौरान कृषि उच्च शिक्षा में इस प्रणाली ने विद्यार्थियों को नुकसान नहीं होने दिया। ब्लैडिड लॉनिंग इसी कृषि मंत्रालय का एक तरह का विस्तार है। सम्मेलन में मौजूद टास (ट्रस्ट फॉर एडवॉर्सेमेंट ऑफ एग्रिकल्चरल साइंस) के संस्थापक चैयरमैन डा. आरएस प्रोस्ट ने कहा कि कृषि क्षेत्र में हमारे देश की शिक्षा प्रणाली काफी सराहनीय है। जिस ब्लैडिड लॉनिंग को लेकर वहाँ सम्मेलन आयोजित हो रहा है, इसके लिए हमारा शिक्षा प्रणाली में पहले से एक मजबूत ढांचा है।

कृषि मंत्री ने नोटवन्दी का भी किया जिक्र
सम्मेलन में केंद्रीय कृषि मंत्री नरेंद्र सिंह तोमर ने कहा कि प्रधानमंत्री नरेंद्र मोदी देश के न्याय विकास के लक्ष्य पर कार्य कर रहे हैं। इस लक्ष्य को प्राप्त करने के लिए हमें कृषि क्षेत्र में कई बार प्रगतिशील कृषि मंत्रालय भी लेते हैं। इस सभी ज्ञानों है कि मलेशिया के उपचार में कुनैन को जल्दत पड़ती है। प्रधानमंत्री ने एक ओर देश को विकसित प्रणाली से एक ओर में 48 करोड़ लोगों को जोड़ते दूसरी ओर नोटवन्दी भी की। यदि यह नहीं होतों तो देश डिजिटललाइजेशन, कैल्कुलस प्रणाली का महत्व नहीं समझ पाता। आज देश

डिजिटलाइजेशन में काफी तरकीब कर चुका है। देश में 11.5 करोड़ किसानों के खेतों में किसान सम्मान निधि योशि सौधे खोले जा रहे हैं। दुनिया में कई देशों की इतनी आबादी भी नहीं है। केवल सरकार द्वारा कृषि क्षेत्र के विकास के लिए किए जा रहे कार्यों का निर्यात करते हुए कहा कि पहले फसल बीमा का किसानों को नाममात्र लाभ मिलता था, कुछ ही किसान इसका लाभ उठा पाते थे। आज 1.30 लाख करोड़ रुपये की बीमा राशि के भुगतान के प्रयास में सरकार जुटी है।

भारत में नरेंद्र मोदी की अग्रिम पंक्ति में खड़े होने की योजना

एनएचईपी के तहत आईसीएआर एवं विश्व बैंक के अंतरराष्ट्रीय सम्मेलन में कृषि में ब्लेडेड लर्निंग इकोसिस्टम तैयार करने की वकालत की गई

नई दिल्ली। भारतीय कृषि अनुसंधान परिषद (आईसीएआर) और विश्व बैंक की मेजबानी में ब्लेडेड लर्निंग इकोसिस्टम पर ह्यार एजुकेशन इन एग्रिकल्चर 2023 पर मंगलवार से तीन दिवसीय अंतरराष्ट्रीय सम्मेलन शुरू हुआ। राष्ट्रीय कृषि उच्च शिक्षा परियोजना (एनएचईपी) की रिसिलिएंट एग्रिकल्चर एजुकेशन सिस्टम के तहत इस कार्यक्रम में 10 से अधिक देशों का प्रतिनिधित्व कर रहे 10 से अधिक अकादमिक साझेदार कृषि शिक्षा में ब्लेडेड लर्निंग एवं लर्निंग में सर्वोत्तम रणनीतियों पर विचार विमर्श कर रहे हैं। सभी कृषि उच्च शिक्षा संस्थानों में डिजिटल आधारभूत ढांचा सुधारने पर केंद्रित ब्लेडेड लर्निंग प्लेटफॉर्म को ऑगमेंटेड रियल्टी (एआर) व वर्चुअल रियल्टी (वीआर) अनुभवों जैसी इमर्सिव टेक्नोलॉजीज और वर्चुअल क्लासरूम को मजबूती से लागू करने के लिए आईसीएआर और विश्व बैंक द्वारा पेश किया गया है। इस देश में राष्ट्रीय कृषि शिक्षा प्रणाली के मजबूत करने के लिए चलाया गया एनएचईपी 2018 में शुरू की गई एक पांच वर्षीय परियोजना है जिसमें विश्व बैंक और केंद्र सरकार प्रत्येक को और से 825 करोड़ डॉलर (करीब 600 करोड़ रुपये) का समान योगदान किया गया है। विश्व बैंक के त्र्या को अदायगी पांच वर्ष की छूट की अवधि के बाद 19 वर्षों में की जाएगी। एनएचईपी का उद्देश्य कृषि उच्च शिक्षा में परिवर्तन लाना है। ब्लेडेड लर्निंग प्लेटफॉर्म इस परियोजना का हिस्सा है। एनएचईपी के तहत आज की तिथि तक 27 देशों में 89 संस्थानों में 20 कृषि विश्वविद्यालयों से करीब 1000 विद्यार्थियों और 450 फैकल्टी

सदस्यों ने अंतरराष्ट्रीय प्रशिक्षण पूरा किया है। 900 से अधिक प्रयोगात्मक लर्निंग इकाइयाँ हैं जहाँ विद्यार्थी छह महीने तक व्यवहारिक अनुभव प्राप्त कर सकते हैं और विषयों में दक्ष हो सकते हैं क्योंकि विभिन्न विश्वविद्यालयों में टी प्रोसेसिंग इकाइयाँ स्थापित की गई हैं। डिजिटल कंटेंट कोष में 160 से अधिक डिजिटलीकृत पाठ्यक्रम हैं और फैकल्टी सदस्यों ने 10000 से अधिक वीडियो अपलोड किए हैं। इस सम्मेलन को संबोधित करते हुए मुख्य अतिथि और केंद्रीय कृषि एवं कृषक कल्याण मंत्री श्री नरेंद्र सिंह तोमर ने कहा कि पिछले पांच वर्षों में आईसीएआर नई ऊंचाइयों पर पहुंचा गया है। जब हमने कृषि मेघ शुरू किया तो किसी को भी नहीं पता था कि यह महामारी काल में गैमचेंजर के तौर पर काम करेगा क्योंकि इसने अन्य देशों की तरह भारत की शिक्षा व्यवस्था प्रणाली को बुरी तरह प्रभावित नहीं होने दिया। मेरा मानना है कि भविष्य में भी यह कई नई उपलब्धियों

हासिल करने में हमारी मदद करेगा। ब्लेडेड लर्निंग और कृषि क्षेत्र भारत को 2047 तक विकसित होकर एक विकसित राष्ट्र बनने में मदद करेगा। भारत की अर्थव्यवस्था को रीढ़ कृषि प्रौद्योगिकी और ज्ञान की वजह से सीमित फंडिंग के साथ फल फूल सकता है। सबका साथ सबका विकास नारे के मुताबिक हम यह सुनिश्चित करने के लिए नीतियाँ बनाते हैं कि जमीनी स्तर पर लोग इनसे लाभान्वित हो सकें। कृषि अनुसंधान एवं शिक्षा विभाग के सचिव और आईसीएआर के महानिदेशक डाक्टर हिमांशु पाठक ने कहा कि भारत सरकार का एक प्रतिबद्ध साझेदार होने के लिए विश्व बैंक को धन्यवाद देना चाहूंगा। मेरा विश्वास है कि इससे अनुसंधान और शिक्षा को और प्रोत्साहन मिलेगा। हमारे माननीय प्रधानमंत्री नरेंद्र मोदी के विजन के मुताबिक वर्ष 2047 तक भारत एक विकसित राष्ट्र बन जाएगा। जलवायु परिवर्तन और कम उत्पादकता की चुनौतियों से निपटने के लिए शिक्षा एक अहम भूमिका निभाएगी। हमारे युवा विद्यार्थियों और वैज्ञानिकों को सभी समस्याओं से निपटने और ब्लेडेड लर्निंग इकोसिस्टम के जरिए को जा सकने वाली नई चीजें सीखने के लिए तैयार रहने की जरूरत है। आईसीएआर के उप महानिदेशक, कृषि शिक्षा डाक्टर आरसी अग्रवाल ने कहा कि हमारा प्रयास रहा है कि हम एनईपी 2020 और एनएचईपी के दिशानिर्देश के मुताबिक कृषि उच्च शिक्षा को बढ़ाएँ। ई.लर्निंग और ई.गवर्नेंस एप्लीकेशंस सभी कृषि विश्वविद्यालयों को पहुंच में हैं।

सोलिस यानमार आधिकारिक वेबसाइट पर ट्रेक्टर कीमत दिखाए वाला पहला मल्टी-नेशनल ट्रेक्टर ब्रांड बना

नई दिल्ली। किसी भी कंपनी का सबसे बड़ा उद्देश्य उत्पाद की खरीद को सुविधाजनक बनाने के लिए एक पारदर्शी वातावरण का निर्माण करना होता है। विशेष रूप से ट्रेक्टर उद्योग में, किसान अपनी परिस्थितियों को और भी सुव्यवस्थित करने के लिए कृषि में नए तरीकों की मांग करते हैं जिसमें ट्रेक्टर की कीमतों पर अधिक स्पष्टता भी शामिल है। ग्लोबल 4इन्व्यूडी ट्रेक्टर एक्सपर्ट सोलिस यानमार ने किसान के भरोसे को नई ऊंचाइयों पर ले जाने के लिए एक श्रेष्ठ दृष्टिकोण अपनाया है और अपनी आधिकारिक वेबसाइट पर कीमतों को प्रदर्शित करने वाला भारत का पहला मल्टी नेशनल (एमएनसी) ट्रेक्टर ब्रांड बन गया है। सोलिस यानमार के नेतृत्व में ट्रेक्टर उद्योग में वह सफलता किसानों को खुशियां आपकी, जिम्मेदारी हमारी का आश्वासन देगी और किसानों को अधिक पारदर्शिता के साथ अपने पसंदीदा सोलिस यानमार ट्रेक्टर चुनने का मौका देगी।

एनएचईपी के तहत आईसीएआर एवं विश्वबैंक के अंतरराष्ट्रीय सम्मेलन में कृषि में ब्लेडेड लर्निंग ईकोसिस्टम तैयार करने की वकालत की

बिजनेस रेमेडीज/नई दिल्ली

भारतीय कृषि अनुसंधान परिषद और विश्व बैंक की मेजबानी में ब्लेडेड लर्निंग ईकोसिस्टम फॉर हार्वर एजुकेशन इन एग्रिकल्चर 2023 पर तीन दिवसीय अंतरराष्ट्रीय सम्मेलन शुरू हुआ। राष्ट्रीय कृषि उच्च शिक्षा परियोजना की रैमिफिएट एग्रिकल्चर एजुकेशन सिस्टम के तहत इस कार्यक्रम में 10 से अधिक देशों का प्रतिनिधित्व कर रहे 10 से अधिक अकादमिक साझेदार कृषि शिक्षा में ब्लेडेड टीचिंग एवं लर्निंग में सर्वोत्तम रणनीतियों पर विचार विमर्श कर रहे हैं। सभी कृषि उच्च शिक्षा संस्थानों में डिजिटल आधारभूत खंचा सुधारों पर केंद्रित ब्लेडेड लर्निंग प्लेटफॉर्म को ऑगमेंटेड रियलिटी वचुअल रियलिटी अनुभवों जैसी इमर्सिव टेक्नोलॉजीज और वचुअल क्लासरूम को मजबूती से लागू करने के लिए आईसीएआर और विश्वबैंक द्वारा पैरा किया गया है। इस दौर में राष्ट्रीय कृषि शिक्षा प्रणाली के मजबूत करने के लिए चलाया गया एनएचईपी 2018 में शुरू की गई एक पांच वर्षीय परियोजना है जिसमें विश्व बैंक और केंद्र सरकार अत्यंत की और से 8.25 करोड़ डॉलर (करीब

600 करोड़ रुपये) का समान योगदान किया गया है। विश्व बैंक के ग्रुप की अदायगी पांच वर्षों की छूट की अवधि के बाद 19 वर्षों में की जाएगी। एनएचईपी का उद्देश्य कृषि उच्च शिक्षा में परिवर्तन लाना है। ब्लेडेड लर्निंग प्लेटफॉर्म इस परियोजना का हिस्सा है।

एनएचईपी के तहत आज की तिथि तक 27 देशों में 89 संस्थानों में 20 कृषि विश्वविद्यालयों से करीब 1000 विद्यार्थियों और 450 फैकल्टी सदस्यों ने अंतरराष्ट्रीय प्रशिक्षण पूरा किया है। 900 से अधिक प्रयोगात्मक लर्निंग इकाइयां हैं जहां विद्यार्थी छह महीने तक व्यवहारिक अनुभव प्राप्त कर सकते हैं और विषयों में दक्ष हो सकते हैं क्योंकि विभिन्न विश्वविद्यालयों में टी प्रोसेसिंग इकाइयां स्थापित की गई हैं। डिजिटल कंटेंट कोष में 160 से अधिक डिजिटलीकृत पाठ्यक्रम हैं और फैकल्टी सदस्यों ने 10,000 से अधिक वीडियो अपलोड किए हैं।

इस सम्मेलन को संबोधित करते हुए मुख्य अतिथि और केंद्रीय कृषि एवं कृषक कल्याण मंत्री नरेंद्र सिंह तोमर ने कहा, कि पिछले पांच वर्षों में आईसीएआर नई ऊंचाइयों पर पहुंचा गया है। जब हमने कृषि

मेघ शुरू किया तो विक्रम की भी नहीं पता था कि यह महामारी काल में गेमचेंजर के तौर पर काम करेगा क्योंकि इतने अन्य देशों की तरह भारत की शिक्षा व्यवस्था प्रणाली को बुरी तरह प्रभावित नहीं होने दिया। मेरा मानना है कि भविष्य में भी यह कई नई उपलब्धियां हासिल करने में हमारे मदद करेगा। ब्लेडेड लर्निंग और कृषि क्षेत्र भारत को 2047 तक विकसित होकर एक विकसित राष्ट्र बनने में मदद करेंगे। भारत की अर्थव्यवस्था की रीढ़ कृषि, प्रौद्योगिकी और ज्ञान को वजह से सीमित फॉइंड के साथ फल फूल सकता है। सबका साथ, सबका विकास नारे के मुताबिक, हम यह सुनिश्चित करने के लिए नीतियां बनाते हैं कि जमीनी स्तर पर लोग इनसे लाभान्वित हो सकें।

कृषि अनुसंधान एवं शिक्षा विभाग के सचिव और आईसीएआर के महानिदेशक डॉक्टर हिमांशु पाठक ने कहा, कि मैं भारत सरकार का एक प्रतिबद्ध साझेदार होने के लिए विश्व बैंक को धन्यवाद देना चाहता हूँ। मेरा विश्वास है कि इससे अनुसंधान और शिक्षा को और प्रोत्साहन मिलेगा। हमारे माननीय प्रधानमंत्री नरेंद्र मोदी के विजन के मुताबिक, वर्ष 2047 तक भारत एक विकसित राष्ट्र बन जाएगा। जलवायु परिवर्तन और कम उत्पादकता को चुनौतियों से निपटने के लिए शिक्षा एक अहम भूमिका निभाएगी। हमारे युवा विद्यार्थियों और वैज्ञानिकों को सभी समस्याओं से निपटने और ब्लेडेड लर्निंग ईकोसिस्टम के जरिए की जा सकने वाली नई चीजें सीखने के लिए तैयार रहने की जरूरत है।

आईसीएआर के उप महानिदेशक (कृषि शिक्षा) डॉक्टर आरसी अग्रवाल ने कहा, कि हमारा प्रयास रहा है कि हम एनईपी 2020 और यून-एनएसडीजी के दिशानिर्देश के मुताबिक कृषि उच्च शिक्षा को बढ़ाएं। ई-लर्निंग और ई-गवर्नेंस एप्लीकेशंस सभी कृषि विश्वविद्यालयों को पहुंच में हैं, इन सभी के पास स्मार्ट क्लासरूम, वीडियो कॉन्फ्रेंसिंग सुविधाएं और वचुअल रियलिटी एक्सपीरियंस लैब्स हैं। छिपसी प्रशिक्षण कृषि विश्वविद्यालयों के पास अकादमिक प्रबंधन प्रणाली है, वहीं 90 प्रतिशत के पास कैम्पस में वाईफाई है और 92 प्रतिशत के पास हाई-स्पीड इंटरनेट कनेक्टिविटी है। वचुअल और ऑगमेंटेड रियलिटी का उपयोग कर अत्यधिक इमर्सिव ई कंटेंट प्राप्त किया जा सकता है। लघु एवं दीर्घ उतर वाले प्रश्नों सहित मूल्यांकन प्रणाली को डिजिटल रूप प्रदान किया गया है।

विश्व बैंक के वरिष्ठ कृषि अर्थशास्त्री डॉक्टर बेकजोड शर्मसीव ने कहा कि नेशनल एग्रिकल्चर हार्वर एजुकेशन प्रोजेक्ट (एनएचईपी) ने लगातार सभी लक्ष्यों को हासिल कर लिया है और हमें से आगे से अधिक में उल्लेखनीय रूप

से आगे निकल चुका है। अने वाले विद्यार्थियों की गुणवत्ता बेहतर है। उनके अधिक कट आफ स्कोर हैं और छात्रों के अधिक प्लेसमेंट रेट हैं। वहीं अनुसंधान अधिक प्रभावी है।

डॉक्टर शर्मसीव ने कहा, कि अपनी चुनींते डिजिटल लर्निंग को डिजिटल एग्रिकल्चर में परिवर्तित करने की है। कृषि विश्वविद्यालयों को सटीक खेती को प्रोत्साहित करने, पर्यावरण पर नजर रखने और कृषि प्रक्रियाओं के ऑटोमेशन में एक महत्वपूर्ण भूमिका निभानी है। इससे बेहतर टॉइंग सिस्टम और बाजार सूचना प्राप्त होगी, प्रभावी कैम्पस में वाईफाई है और 92 प्रतिशत के पास हाई-स्पीड इंटरनेट कनेक्टिविटी है। वचुअल और ऑगमेंटेड रियलिटी का उपयोग कर अत्यधिक इमर्सिव ई कंटेंट प्राप्त किया जा सकता है। लघु एवं दीर्घ उतर वाले प्रश्नों सहित मूल्यांकन प्रणाली को डिजिटल रूप प्रदान किया गया है।

विश्व बैंक के वरिष्ठ कृषि अर्थशास्त्री डॉक्टर बेकजोड शर्मसीव ने कहा कि नेशनल एग्रिकल्चर हार्वर एजुकेशन प्रोजेक्ट (एनएचईपी) ने लगातार सभी लक्ष्यों को हासिल कर लिया है और हमें से आगे से अधिक में उल्लेखनीय रूप

आईसीएआर और विश्व बैंक की मेजबानी में ब्लेंडेड लर्निंग ईकोसिस्टम फॉर हायर एजुकेशन पर तीन दिवसीय अंतरराष्ट्रीय सम्मेलन शुरू हुआ

नई दिल्ली। भारतीय कृषि अनुसंधान परिषद (आईसीएआर) और विश्व बैंक की मेजबानी में ब्लेंडेड लर्निंग ईकोसिस्टम फॉर हायर एजुकेशन इन एग्रिकल्चर 2023 पर मंगलवार से तीन दिवसीय अंतरराष्ट्रीय सम्मेलन शुरू हुआ। राष्ट्रीय कृषि उच्च शिक्षा परियोजना (एनएएचईपी) की रिसिलिएंट एग्रिकल्चर एजुकेशन सिस्टम के तहत इस कार्यक्रम में 10 से अधिक देशों का प्रतिनिधित्व कर रहे 10 से अधिक अकादमिक साझेदार कृषि शिक्षा में ब्लेंडेड टीचिंग एवं लर्निंग में सर्वोत्तम रणनीतियों पर विचार विमर्श कर रहे हैं। सभी कृषि उच्च शिक्षा संस्थानों में डिजिटल आधारभूत ढांचा सुधारने पर केंद्रित ब्लेंडेड लर्निंग प्लेटफॉर्म को ऑगमेंटेड रियल्टी (एआर)/ वर्चुअल रियल्टी (वीआर) अनुभवों जैसी इमर्सिव टेक्नोलॉजीज और वर्चुअल क्लासरूम को मजबूती से लागू करने के लिए आईसीएआर और विश्व बैंक द्वारा पेश किया गया है। इस सम्मेलन को संबोधित करते हुए

मुख्य अतिथि और केंद्रीय कृषि एवं कृषक कल्याण मंत्री श्री नरेंद्र सिंह तोमर ने कहा, पिछले पांच वर्षों में आईसीएआर नई ऊंचाइयों पर पहुंचा गया है। जब हमने कृषि मेघ शुरू किया तो किसी को भी नहीं पता था कि यह महामारी काल में गेमचेंजर के तौर पर काम करेगा क्योंकि इसने अन्य देशों की तरह भारत की शिक्षा व्यवस्था प्रणाली को बुरी तरह प्रभावित नहीं होने दिया। मेरा मानना है कि भविष्य में भी यह कई नई उपलब्धियां हासिल करने में हमारी मदद करेगा। ब्लेंडेड लर्निंग और कृषि क्षेत्र भारत को 2047 तक विकसित होकर एक विकसित राष्ट्र बनने में मदद करेंगे। भारत की अर्थव्यवस्था की रीढ़ कृषि, प्रौद्योगिकी और ज्ञान की वजह से सीमित फंडिंग के साथ फल फूल सकता है। सबका साथ, सबका विकास नारे के मुताबिक, हम यह सुनिश्चित करने के लिए नीतियां बनाते हैं कि जमीनी स्तर पर लोग इनसे लाभान्वित हो सकें। कृषि अनुसंधान एवं शिक्षा विभाग के

सचिव और आईसीएआर के महानिदेशक डाक्टर हिमांशु पाठक ने कहा, मैं भारत सरकार का एक प्रतिबद्ध साझेदार होने के लिए विश्व बैंक को धन्यवाद देना चाहूंगा। मेरा विश्वास है कि इससे अनुसंधान और शिक्षा को और प्रोत्साहन मिलेगा। हमारे माननीय प्रधानमंत्री नरेंद्र मोदी के विजन के मुताबिक, वर्ष 2047 तक भारत एक विकसित राष्ट्र बन जाएगा। जलवायु परिवर्तन और कम उत्पादकता की चुनौतियों से निपटने के लिए शिक्षा एक अहम भूमिका निभाएगी। हमारे युवा विद्यार्थियों और वैज्ञानिकों को सभी समस्याओं से निपटने और ब्लेंडेड लर्निंग ईकोसिस्टम के जरिए की जा सकने वाली नई चीजें सीखने के लिए तैयार रहने की जरूरत है। आईसीएआर के उप महानिदेशक (कृषि शिक्षा) डाक्टर आरसी अग्रवाल ने कहा, हमारा प्रयास रहा है कि हम एनईपी 2020 और यूएन-एसडीजी के दिशानिर्देश के मुताबिक कृषि उच्च शिक्षा को बढ़ाएं।

NAHEP- இன் கீழ் ICAR மற்றும் உலக வங்கி நடத்தும் சர்வதேச மாநாடு

சென்னை, 23, மார்ச்: வேளாண்மையில் உயர் கல்விக்கான ஒருங்கிணைந்த கற்றல் சுற்றுச்சூழல் அமைப்பு பற்றிய சர்வதேச மாநாடு 2023, இந்திய வேளாண் ஆராய்ச்சி கவுன்சில் (ICAR) மற்றும் உலக வங்கி இணைந்து நடத்துகிறது. இந்நிகழ்வுமார்ச் 21-23 முதல் தேசிய வேளாண்மை உயர்கல்வித் திட்டத்தின் (NAHEP) ரெசிலியன்ட் வேளாண்மைக் கல்வி முறையின் (RAES) மேம்பாட்டு முயற்சியின் ஒரு பகுதியாக, உலகெங்கிலும் உள்ள பத்துக்கும் மேற்பட்ட கல்வி குழுமங்கள், பத்துக்கும் மேற்பட்ட நாடுகளை பிரதிநிதித்துவப்படுத்தி, விவசாய கல்வி கற்றலில் கலவையான முறை கற்பித்தலின் சிறந்த உத்திகள் குறித்து ஆலோசித்து வருகின்றனர்.

நாட்டில்தேசிய விவசாயக்கல்விமுறையை வலுப்படுத்துவதற்காக மேற்கொள்ளப்பட்ட NAHEP என்பது, உலக வங்கி மற்றும் மத்திய அரசாங்கத்தின் தலா \$82.5 மில்லியன் (சுமார் ரூ. 600 கோடி) பங்களிப்பில் 2018 இல் தொடங்கப்பட்ட ஐந்தாண்டு திட்டமாகும். உலக வங்கிக் கடனை 19 ஆண்டுகளுக்குப் பிறகு, ஐந்து வருட கால அவகாசத்திற்குப் பிறகு திருப்பிச் செலுத்த வேண்டும், NAHEP இன் நோக்கம் விவசாய உயர்கல்வியை மாற்றுவதாகும். இவை தான் ஒருங்கிணைந்த கற்றல் தளம் திட்டத்தின் ஒரு பகுதியாகும். மாநாட்டில் உரையாற்றிய தலைமை

விருந்தினரும், மாண்புமிகு மத்திய விவசாயம் மற்றும் விவசாயிகள் நலத்துறை அமைச்சருமான திரு நரேந்திர சிங் தோமர், “கடந்த ஐந்து ஆண்டுகளில் இருந்து, ICAR ஒரு புதிய உயரத்தை எட்டியுள்ளது. நான் எதிர்காலத்தில் கூட நம்புகிறேன்; இது பல புதியபாராட்டுகளை அடைய நமக்கு உதவும்.” என்றார்.

விவசாய ஆராய்ச்சி மற்றும் கல்வித் துறை (DARE) மற்றும் இயக்குநர் ஜெனரல் (ICAR) டாக்டர் ஹிமான்ஷு பதக் கூறுகையில், “இந்திய அரசாங்கத்தின் உறுதியான பங்களியாக இருப்பதற்கு உலக வங்கிக்கு நன்றி தெரிவிக்க விரும்புகிறேன். இது ஆராய்ச்சி மற்றும் கல்வியை மேலும் ஊக்குவிக்கும் என நம்புகிறேன்.

நமது மாண்புமிகு பிரதமர் நரேந்திர மோடியின் தொலைநோக்கு பார்வையின்படி 2047-க்குள் இந்தியா வளர்ந்த நாடாக மாறும். பருவநிலை மாற்றம் மற்றும் குறைந்த உற்பத்தித்திறன் ஆகியவற்றின் சவால்களை எதிர்கொள்ள, கல்வி முக்கிய பங்கு வகிக்கும். நமது இளம் மாணவர்களும் விஞ்ஞானிகளும் அனைத்துப் பிரச்சனைகளையும் எதிர்த்துப் போராடவும், புதிய விஷயங்களைக் கற்றுக்கொள்வதற்கான சோதனைகளைச் செய்யவும் தயாராக இருக்க வேண்டும்.” என்றார்.

இந்திய வேளாண் ஆராய்ச்சி கவுன்சில் மற்றும் உலக வங்கி இணைந்து நடத்தும் சர்வதேச மாநாடு

சென்னை, மார்ச் 24: வேளாண்மையில் உயர் கல்விக்கான ஒருங்கிணைந்த கற்றல் கற்றுச்சூழல் அமைப்பு பற்றிய சர்வதேச மாநாடு 2023, இந்திய வேளாண் ஆராய்ச்சி கவுன்சில் (ICAR) மற்றும் உலக வங்கி இணைந்து நடத்துகிறது. இந்தக் கழிவு மார்ச் 21-23 முதல் தேசிய வேளாண்மை உயர் கல்வித் திட்டத்தின் (NA-HEP) ரெசிலியன்ட் வேளாண்மைக் கல்வி முறையின் (RAES) மேம்பாட்டு முயற்சியின் ஒரு பகுதியாக, உலகெங்கிலும் உள்ள பத்துக்கும் மேற்பட்ட கல்வி குழுமங்கள், பத்துக்கும் மேற்பட்ட நாடுகளை பிரதிநிதித்துவப்படுத்தி, விவசாய கல்வி கற்றலில் கலவையான முறை கற்பித்தலின் சிறந்த உத்திகள் குறித்து ஆலோசித்து வருகின்றனர். இந்த ஒருங்கிணைந்த கற்றல் தளம், விவசாய உயர்கல்வி நிறுவனங்கள் (A-HEIs) முழுவதும் டிஜிட்டல் உள்ளிட்ட மைப்பை மேம்படுத்துவதில் கவனம் செலுத்தும். இது

ICAR மற்றும் உலக வங்கியால் துவங்கப்பட்டது. ஆக்மென்ட் ரியாலிட்டி (ஏஆர்) / விர்ச்சுவல் ரியாலிட்டி (விஆர்) அனுபவங்கள் மற்றும் விர்ச்சுவல் வகுப்பறைகள் போன்ற அதிவேக தொழில்நுட்பங்களின் வரிசைப்படுத்தலை வலுப்படுத்த இது உதவும். மாநாட்டில் உரையாற்றிய தலைமை விருந்தினரும், மத்திய விவசாயம் மற்றும் விவசாயிகள் நலத்துறை அமைச்சருமான நரேந்திர சிங் தோமர், "கடந்த ஐந்து ஆண்டுகளில்

இருந்து, ICAR ஒரு புதிய உயரத்தை எட்டியுள்ளது. நாங்கள் க்ரிஷி மேக் அறிமுகப்படுத்தியபோது, தொற்று நோய்களின் போது அது கேம்சேஞ்சராக செயல்படும் என்று யாருக்கும் தெரியாது. ஏனெனில் இது மற்ற நாடுகளைப் போல இந்தியாவின் கல்வி முறையை மோசமாக பாதிக்க அனுமதிக்கவில்லை. நான் எதிர்காலத்தில் கூட நம்புகிறேன்; இது பல புதிய பாராட்டுகளை அடைய நமக்கு உதவும். ஒருங்கிணைந்த கற்றல் மற்றும் விவசாயத்

துறையானது 2047 ஆம் ஆண்டிற்குள் இந்தியா ஒரு வளர்ந்த நாடாக மாற உதவும். இந்தியாவின் பொருளாதாரத்தின் முதுகெலும்பாக விளங்கும் விவசாயம், தொழில்நுட்பம் மற்றும் அறிவின் காரணமாக வரையறுக்கப்பட்ட நிதியுதவியுடன் செழிக்க முடியும். 'சர்கா சாத், சர்கா விகாஸ்' என்ற கொள்கைகளுக்கு ஏற்ப, அடிமட்ட மக்கள் அவற்றி் லிருந்து பயனடைவதை உறுதி செய்யும் கொள்கைகளை உருவாக்குகிறோம்.' என்றார்.

Delhi to Host International Conference on Blended Learning Ecosystem for Higher Education in Agriculture Today

Updated: 21/03/2023

The mega-event to be organized jointly by Indian Council of Agricultural Research (ICAR) and World Bank

NEW DELHI, March 21, 2023 /PRNewswire/ -- The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank today jointly announced the first International Conference on 'Blended Learning Ecosystem for Higher Education in Agriculture' in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR – IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for development of state-of-the-art blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions, the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by the Hon'ble Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministries will also be participating along with other global leading institutions like AICTE, IIT, IRRI among others. Eminent speakers addressing the conference include Dr. Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, Dr. R.C. Agrawal, Deputy Director General Council of Agricultural Research (ICAR), Ministry of Agriculture and Farmers Welfare, Government of India and Dr. Auguste Tano Kouame, Country Director, The World Bank among others.

Tomar launches blended learning platform for higher education in agriculture

Updated: Mar 21 2023 8:55PM

New Delhi, Mar 21 (PTI) Agriculture Minister Narendra Singh Tomar on Tuesday launched a blended learning platform for higher education in agriculture, developed by the Indian Council of Agricultural Research (ICAR) as part of a World Bank-funded project.

ICAR has developed the blended learning ecosystem as part of the five-year National Agricultural Higher Education Project (NAHEP) concluding this year. India and the World Bank have contributed USD 82.5 million (about Rs 600 crore) each for this project that aimed at strengthening the national agriculture education system in the country.

"The blended learning is an extension of Krishi Megh. I believe it will strengthen the foundation of Krishi Megh and will help in meeting the requirement of digital learning," Tomar said at the launch of this platform at the three-day international conference here.

Union Minister of Agriculture and Farmers Welfare Narendra Singh Tomar on Tuesday said that blended learning and the agricultural sector will help India in becoming a developed nation by 2047.

While speaking at an event on the blended learning ecosystem for higher education in agriculture 2023 hosted jointly by ICAR and World Bank, he said that agriculture, which is the backbone of India's economy, can thrive with limited funding due to technology and knowledge.

Tomar said that in the past five years, the ICAR has reached a new height.

"When we launched Krishi Megh nobody knew it would act as a game-changer during the pandemic as it did not let India's education system be as adversely affected as other countries. I believe even in the future; it will help us in achieving many new accolades," he added.

Tomar also said that it is the priority of the government to improve the standard of living of all, including the country's poor, labourers, farmers and tribal brothers and sisters.

"The government is doing whatever corrective work needs to be done in the direction of upcoming challenges, need of technology and significance of digitalisation," he said.

The minister added that India ranks the best in terms of digital transactions.

तोमर ने कृषि में उच्च शिक्षा के लिए मिश्रित शिक्षण मंच का शुभारंभ किया

भाषा 21 March, 2023 09:25 pm IST

नयी दिल्ली, 21 मार्च (भाषा) कृषि मंत्री नरेंद्र सिंह तोमर ने मंगलवार को विश्व बैंक द्वारा वित्तपोषित परियोजना के तहत भारतीय कृषि अनुसंधान परिषद (आईसीएआर) द्वारा तैयार कृषि में उच्च शिक्षा के लिए मिश्रित शिक्षण मंच का शुभारंभ किया।

Advertisement

आईसीएआर ने इस वर्ष समाप्त होने वाली पांच वार्षिक राष्ट्रीय कृषि उच्च शिक्षा परियोजना (एनएचईपी) के हिस्से के रूप में मिश्रित शिक्षण पारिस्थितिकी तंत्र विकसित किया है। भारत और विश्व बैंक ने इस परियोजना के लिए 8.25 करोड़ डॉलर (लगभग 600 करोड़ रुपये) का योगदान दिया है जिसका उद्देश्य देश में राष्ट्रीय कृषि शिक्षा प्रणाली को मजबूत करना है।

तोमर ने यहां तीन दिन के अंतरराष्ट्रीय सम्मेलन में इस मंच के शुभारंभ के अवसर पर कहा, "मिश्रित शिक्षा कृषि मेघ का विस्तार है। मेरा मानना है कि यह कृषि मेघ की नींव को मजबूत करेगा और डिजिटल शिक्षा की आवश्यकता को पूरा करने में मदद करेगा।"

कृषि मेघ, जो आईसीएआर का डेटा रिकवरी सेंटर है, किसानों, शोधकर्ताओं, छात्रों और नीति निर्माताओं को कृषि और अनुसंधान के बारे में नवीनतम जानकारी के साथ अद्यतन करने में सक्षम बनाता है।

मंत्री ने कहा कि भारत को 2047 तक एक विकसित राष्ट्र बनने के लिए मिश्रित शिक्षण पारिस्थितिकी तंत्र महत्वपूर्ण भूमिका निभाएगा।

मिश्रित शिक्षण ऑफ़लाइन और ऑनलाइन सीखने का एक संयोजन है जो एक दूसरे का पूरक है।

आईसीएआर के महानिदेशक हिमांशु पाठक ने कहा, "मेरा मानना है कि विश्व बैंक अनुसंधान और शिक्षा को और बढ़ावा देगा। ...जलवायु परिवर्तन और कम उत्पादकता की चुनौतियों का समाधान करने के लिए शिक्षा महत्वपूर्ण भूमिका निभाएगी। हमारे युवा छात्रों के साथ-साथ वैज्ञानिकों को भी इसकी आवश्यकता है।"

NEW DELHI: Agriculture Minister Narendra Singh Tomar on Tuesday launched a blended learning platform for higher education in agriculture, developed by the Indian Council of Agricultural Research (ICAR) as part of a World Bank-funded project. ICAR has developed the blended learning ecosystem as part of the five-year National Agricultural Higher Education Project (NAHEP) concluding this year.

India and the World Bank have contributed USD 82.5 million (about Rs 600 crore) each for this project that aimed at strengthening the national agriculture education system in the country. "The blended learning is an extension of Krishi Megh. I believe it will strengthen the foundation of Krishi Megh and will help in meeting the requirement of digital learning," Tomar said at the launch of this platform at the three-day international conference here.

तोमर ने कृषि में उच्च शिक्षा के लिए मिश्रित शिक्षण मंच का शुभारंभ किया

: Bhasha , March 21, 2023 / 09:07 PM IST

नयी दिल्ली, 21 मार्च (भाषा) कृषि मंत्री नरेंद्र सिंह तोमर ने मंगलवार को विश्व बैंक द्वारा वित्तपोषित परियोजना के तहत भारतीय कृषि अनुसंधान परिषद (आईसीएआर) द्वारा तैयार कृषि में उच्च शिक्षा के लिए मिश्रित शिक्षण मंच का शुभारंभ किया।

आईसीएआर ने इस वर्ष समाप्त होने वाली पांच वर्षीय राष्ट्रीय कृषि उच्च शिक्षा परियोजना (एनएचईपी) के हिस्से के रूप में मिश्रित शिक्षण पारिस्थितिकी तंत्र विकसित किया है। भारत और विश्व बैंक ने इस परियोजना के लिए 8.25 करोड़ डॉलर (लगभग 600 करोड़ रुपये) का योगदान दिया है जिसका उद्देश्य देश में राष्ट्रीय कृषि शिक्षा प्रणाली को मजबूत करना है।

Focus on deployment of immersive technologies such as Augmented Reality (AR)/Virtual Reality (VR) Experiences and Virtual Classrooms

The Indian Council of Agricultural Research (ICAR) has launched a blended learning platform focused on improving Digital Infrastructure across Agricultural Higher Education Institutions (A-HEIs) with World Bank to strengthen deployment of immersive technologies such as Augmented Reality (AR)/Virtual Reality (VR) Experiences and Virtual Classrooms.

Undertaken to strengthen the National Agricultural Education System in the country, NAHEP is a five-year project initiated in 2018 with equal contribution of \$82.5 million (about Rs 600 crore) each from the World Bank and the central government. The World Bank loan is to be repaid over 19 years after a grace period of five years, The purpose of NAHEP is to transform agricultural higher education. The Blended Learning Platform is part of the project.

Tomar ने कृषि में उच्च शिक्षा के लिए मिश्रित शिक्षण मंच का शुभारंभ किया

By प्रभासाक्षी न्यूज नेटवर्क | Mar 21, 2023

कृषि मंत्री नरेंद्र सिंह तोमर ने मंगलवार को विश्व बैंक द्वारा वित्तपोषित परियोजना के तहत भारतीय कृषि अनुसंधान परिषद (आईसीएआर) द्वारा तैयार कृषि में उच्च शिक्षा के लिए मिश्रित शिक्षण मंच का शुभारंभ किया। आईसीएआर ने इस वर्ष समाप्त होने वाली पांच वर्षीय राष्ट्रीय कृषि उच्च शिक्षा परियोजना (एनएएचईपी) के हिस्से के रूप में मिश्रित शिक्षण पारिस्थितिकी तंत्र विकसित किया है। भारत और विश्व बैंक ने इस परियोजना के लिए 8.25 करोड़ डॉलर (लगभग 600 करोड़ रुपये) का योगदान दिया है जिसका उद्देश्य देश में राष्ट्रीय कृषि शिक्षा प्रणाली को मजबूत करना है।

तोमर ने यहां तीन दिन के अंतरराष्ट्रीय सम्मेलन में इस मंच के शुभारंभ के अवसर पर कहा, "मिश्रित शिक्षा कृषि मेघ का विस्तार है। मेरा मानना है कि यह कृषि मेघ की नींव को मजबूत करेगा और डिजिटल शिक्षा की आवश्यकता को पूरा करने में मदद करेगा।" कृषि मेघ, जो आईसीएआर का डेटा रिकवरी सेंटर है, किसानों, शोधकर्ताओं, छात्रों और नीति निर्माताओं को कृषि और अनुसंधान के बारे में नवीनतम जानकारी के साथ अद्यतन करने में सक्षम बनाता है।

मंत्री ने कहा कि भारत को 2047 तक एक विकसित राष्ट्र बनने के लिए मिश्रित शिक्षण पारिस्थितिकी तंत्र महत्वपूर्ण भूमिका निभाएगा। मिश्रित शिक्षण ऑफ़लाइन और ऑनलाइन सीखने का एक संयोजन है जो एक दूसरे का पूरक है। आईसीएआर के महानिदेशक हिमांशु पाठक ने कहा, "मेरा मानना है कि विश्व बैंक अनुसंधान और शिक्षा को और बढ़ावा देगा। ...जलवायु परिवर्तन और कम उत्पादकता की चुनौतियों का समाधान करने के लिए शिक्षा महत्वपूर्ण भूमिका निभाएगी। हमारे युवा छात्रों के साथ-साथ वैज्ञानिकों को भी इसकी आवश्यकता है।" आईसीएआर के उप महानिदेशक (कृषि शिक्षा) आर सी अग्रवाल ने कहा कि यह आईसीएआर का प्रयास रहा है कि राष्ट्रीय शिक्षा नीति 2020 और यूएन-एसडीजी के मार्गदर्शन के साथ कृषि उच्च शिक्षा को बढ़ाया जाए।

The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank have come together to announce the first International Conference on Blended Learning Ecosystem for Higher Education in Agriculture; in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR - IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for development of state-of-the-art blended education system for higher agricultural education.

NAHEP

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by the Hon'ble Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministries will also be participating along with other global leading institutions like AICTE, IIT, IRRI among others. Eminent speakers addressing the The conference include Dr. Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, Dr. R.C. Agrawal, Deputy Director General Council of Agricultural Research (ICAR), Ministry of Agriculture and Farmers Welfare, Government of India and Dr. Auguste Tano Kouame, Country Director, The World Bank among others.

कृषि में उच्च शिक्षा के लिए मिश्रित शिक्षण पारिस्थितिकी तंत्र पर अंतरराष्ट्रीय सम्मेलन का उद्घाटन

○ मार्च 21, 2023 ● INSAMACHAR

कृषि में उच्च शिक्षा के लिए मिश्रित शिक्षण पारिस्थितिकी तंत्र (ब्लेंडेड लर्निंग इकोसिस्टम फार हायर एजुकेशन इन एग्रीकल्चर) पर आयोजित अंतरराष्ट्रीय सम्मेलन का उद्घाटन आज केंद्रीय कृषि मंत्री नरेंद्र सिंह तोमर ने किया। भारतीय कृषि अनुसंधान परिषद (आईसीएआर) द्वारा विश्व बैंक के सहयोग से आयोजित सम्मेलन में कृषि मंत्री तोमर ने ब्लेंडेड लर्निंग प्लेटफार्म लांच किया। इस अवसर पर कृषि मंत्री तोमर ने कहा कि आने वाले काल में कृषि के समक्ष विद्यमान चुनौतियों का समाधान करने के लिए कृषि शिक्षा, तकनीक व ज्ञान होना आवश्यक है।

मुख्य अतिथि केंद्रीय मंत्री तोमर ने खुशी जताते हुए कहा कि कृषि मेघ जैसी सुविधाएं, जिसे अगस्त-2020 में शुरू किया गया व अप्रैल-2021 में प्रारंभ वर्चुअल क्लासरूम ने महामारी के दौरान शिक्षण में अहम भूमिका निभाई। यह ब्लेंडेड लर्निंग प्लेटफार्म देशभर में कृषि विश्वविद्यालयों व कालेजों के शिक्षकों एवं विद्यार्थियों के लिए कृषि मेघ को और भी उपयोगी बनाएगा। कृषि मेघ आधारभूत ढांचा को ब्लेंडेड लर्निंग प्लेटफार्म के लिए मजबूत किया गया है, ताकि विद्यार्थी लाभान्वित हों। कृषि मंत्री तोमर ने कहा कि प्रधानमंत्री नरेंद्र मोदी के आह्वान अनुसार देश की आजादी के 75 वर्ष पूरे होने के बाद 100 वर्ष होने तक बीच के 25 साल अमृत काल में हमारा सोच-विचार, कार्यपद्धति, गति व दृष्टि इतनी व्यापक होना चाहिए कि वर्ष 2047 तक भारत सारी तकनीकों से लैस होकर विकसित देशों की अग्रपंक्ति में खड़ा दिखाई दे। इस यात्रा में ब्लेंडेड लर्निंग का बड़ा योगदान होगा। तकनीक का खेत तक विस्तार हमारी जिम्मेदारी है। खेती का क्षेत्र सरल हो, नई पीढ़ी के लिए आकर्षक हो, रोजगार के अवसर सजित

मंगलवार, 21 मार्च 2023, रात 9:45 बजे

कृषि मंत्री नरेंद्र सिंह तोमर ने मंगलवार को विश्व बैंक द्वारा वित्तपोषित परियोजना के तहत भारतीय कृषि अनुसंधान परिषद (आईसीएआर) द्वारा तैयार कृषि में उच्च शिक्षा के लिए मिश्रित शिक्षण मंच का शुभारंभ किया।

कृषि मंत्री नरेंद्र सिंह तोमर (काङ्गल)

आईसीएआर ने इस वर्ष समाप्त होने वाली पांच वर्षीय राष्ट्रीय कृषि उच्च शिक्षा परियोजना (एनएएचईपी) के हिस्से के रूप में मिश्रित शिक्षण पारिस्थितिकी तंत्र विकसित किया है। भारत और विश्व बैंक ने इस परियोजना के लिए 8.25 करोड़ डॉलर (लगभग 600 करोड़ रुपये) का योगदान दिया है जिसका उद्देश्य देश में राष्ट्रीय कृषि शिक्षा प्रणाली को मजबूत करना है।

तोमर ने यहां तीन दिन के अंतरराष्ट्रीय सम्मेलन में इस मंच के शुभारंभ के अवसर पर कहा, "मिश्रित शिक्षा कृषि मेघ का विस्तार है। मेरा मानना है कि यह कृषि मेघ की नींव को मजबूत करेगा और डिजिटल शिक्षा की आवश्यकता को पूरा करने में मदद करेगा।"

कृषि मेघ, जो आईसीएआर का डेटा रिकवरी सेंटर है, किसानों, शोधकर्ताओं, छात्रों और नीति निर्माताओं को कृषि और अनुसंधान के बारे में नवीनतम जानकारी के साथ अद्यतन करने में सक्षम बनाता है।

मंत्री ने कहा कि भारत को 2047 तक एक विकसित राष्ट्र बनने के लिए मिश्रित शिक्षण पारिस्थितिकी तंत्र महत्वपूर्ण भूमिका निभाएगा।

मिश्रित शिक्षण ऑफलाइन और ऑनलाइन सीखने का एक संयोजन है जो एक दूसरे का पूरक है।

आईसीएआर के महानिदेशक हिमंशु पाठक ने कहा, "मेरा मानना है कि विश्व बैंक अनुसंधान और शिक्षा को और बढ़ावा देगा। ...जलवायु परिवर्तन और कम उत्पादकता की चुनौतियों का समाधान करने के लिए शिक्षा महत्वपूर्ण भूमिका निभाएगी। हमारे युवा छात्रों के साथ-साथ वैज्ञानिकों को भी इसकी आवश्यकता है।"

आईसीएआर के उप महानिदेशक (कृषि शिक्षा) आर सी अग्रवाल ने कहा कि यह आईसीएआर का प्रयास रहा है कि राष्ट्रीय शिक्षा नीति 2020 और यूएन-एसडीजी के मार्गदर्शन के साथ कृषि उच्च शिक्षा को बढ़ाया जाए।

International Conference On Blended Learning Ecosystem For Higher Education In Agriculture Inaugurated

By lednewsdesk — On Mar 21, 2023

Union Agriculture and Farmers Welfare Minister Shri Narendra Singh Tomar inaugurated the International Conference on Blended Learning Ecosystem for Higher Education in Agriculture, in New Delhi today. Shri Tomar launched the Blended Learning Platform at the conference organized by the Indian Council of Agricultural Research (ICAR) in collaboration with the World Bank. On this occasion, Shri Tomar said that it is necessary to have agricultural education, technology and knowledge to solve the challenges facing agriculture in the future.

Expressing happiness, the Chief Guest, Union Minister Shri Tomar said that facilities like Krishi Megh (National Agricultural Research & Education System - Cloud Infrastructure and Services), which was started in August, 2020 and Virtual Classroom started in April, 2021, played an important role in teaching during the pandemic. This

ICAR has developed the blended learning ecosystem as part of the five-year National Agricultural Higher Education Project (NAHEP) concluding this year. India and the World Bank have contributed USD 82.5 million (about Rs 600 crore) each for this project that aimed at strengthening the national agriculture education system in the country.

"The blended learning is an extension of Krishi Megh. I believe it will strengthen the foundation of Krishi Megh and will help in meeting the requirement of digital learning," Tomar said at the launch of this platform at the three-day international conference here.

Krishi Megh, which is a data recovery centre of ICAR, enables the farmers, researchers, students and policymakers to be updated with latest information regarding agriculture and research.

For India to become a developed nation by 2047, the minister said the blended learning ecosystem will play a key role in this journey.

Narendra Singh Tomar Launches Blended Learning Platform For Higher Education In Agriculture

POSTED ON MARCH 22, 2023 BY EDUVOICE CORRESPONDENT

Agriculture Minister Narendra Singh Tomar on Tuesday launched a blended learning platform for higher education in agriculture, developed by the **Indian Council of Agricultural Research (ICAR)** as part of a World Bank-funded project. ICAR has developed the blended learning ecosystem as part of the five-year **National Agricultural Higher Education Project (NAHEP)** concluding this year. India and the World Bank have contributed USD 82.5 million (about Rs 600 crore) each for this project that aimed at strengthening the national agriculture education system in the country. *"The blended learning is an extension of Krishi Megh. I believe it will strengthen the foundation of Krishi Megh and will help in meeting the requirement of digital learning,"* Tomar said at the launch of this platform at the three-day international conference here.

Krishi Megh, which is a data recovery centre of ICAR, enables farmers, researchers, students, and policymakers to be updated with the latest information regarding **agriculture** and research. For India to become a developed nation by 2047, the minister said the blended learning ecosystem will play a key role in this journey. Blended learning is a combination of offline and online learning in a way that one complements the other. ICAR Director General Himanshu Pathak said, *"I believe the World Bank will further promote research and education. ...To address the challenges of climate change and low productivity, education will play a crucial role. Our young students as well as scientists need to be equipped to combat all problems and experiment to learn new things which can be done through a blended learning ecosystem."*

कृषि अवसंरचना कोष योजना व प्रधानमंत्री सूक्ष्म खाद्य उद्यम उन्नयन योजना एवं पीएम किसान संपदा योजना के बीच कन्वर्जेंस मॉड्यूल का शुभारंभ

September 21, 2022

कृषि मंत्रालय की कृषि अवसंरचना कोष (AIF) योजना और खाद्य प्रसंस्करण उद्योग मंत्रालय की प्रधानमंत्री सूक्ष्म खाद्य उद्यम उन्नयन योजना (PMFME) एवं प्रधानमंत्री किसान संपदा योजना (PMKSY) के बीच अभिसरण (कन्वर्जेंस) मॉड्यूल का शुभारंभ केन्द्रीय मंत्री नरेंद्र सिंह तोमर और पशुपति कुमार पारस ने आजादी का अमृत महोत्सव के अंतर्गत किया। इस अवसर पर कृषि मंत्री तोमर ने कहा कि इस तरह की पहल के माध्यम से प्रधानमंत्री नरेंद्र मोदी द्वारा जनकल्याण के लिए सामूहिक रूप से सरकार का संचालन करने की सोच साकार हो रही है, जिससे देश के विभिन्न वर्गों को फायदा होगा, जिनमें किसान और प्रसंस्करण क्षेत्र के लघु उद्यमी भी शामिल हैं। पशुपति कुमार पारस ने कहा कि यह नई पहल कृषि एवं खाद्य प्रसंस्करण क्षेत्र के लिए फायदेमंद और प्रेरणादायी है।

कार्यक्रम में कृषि मंत्री तोमर ने कहा कि प्रधानमंत्री जी की भावना के अनुरूप, सरकार की योजनाओं का लाभ जन-जन तक पहुंचाने के उद्देश्य से विभिन्न मंत्रालयों में सहकार-सहयोग के माध्यम से कन्वर्जेंस मॉड्यूल की शुरुआत की गई है। मोदीजी का कहना रहा है कि सभी मंत्रालय एक-दूसरे के साथ मिलकर काम करें और प्रक्रिया नहीं होने वाली जगहों को विभिन्न योजनाओं का लाभ मिल सके। इस पहल के माध्यम से

Delhi to Host International Conference on Blended Learning Ecosystem for Higher Education in Agriculture Today

The mega-event to be organized jointly by Indian Council Of Agricultural Research (ICAR) and World Bank

NEW DELHI, March 21, 2023 /PRNewswire/ – The Indian Council of Agricultural Research (ICAR), the apex body for co-ordinating, guiding and managing research and education in agriculture, and World Bank today jointly announced the first International Conference on ‘Blended Learning Ecosystem for Higher Education in Agriculture’ in India under the National Agricultural Higher Education Project (NAHEP). The three-day event to be held from March 21-23 in New Delhi will be hosted by ICAR – IASRI (Indian Agricultural Statistics Research Institute), which is a multi-partner global forum to support collaboration for development of state-of-the-art blended education system for higher agricultural education.

The aim of this conference is to facilitate the development of a global ecosystem of partners from academia, industry, government, and multilateral and bilateral organizations who would provide critical insights towards design and full-scale implementation of all aspects of the Resilient Agricultural Education System (RAES) under National Agricultural Higher Education Project (NAHEP), that is, learning management system, content repository, and system-wide capacity building. Apart from the engaging discussions, the three-day event will also showcase an exhibition on the diverse range of services and offerings in the field of agriculture and blended learning.

The conference and exhibition will be inaugurated by the Hon’ble Shri Narendra Singh Tomar, Minister of Agriculture & Farmers Welfare. Various other ministries will also be participating along with other global leading institutions like AICTE, IIT, IRRI among others. Eminent speakers addressing the conference include Dr. Himanshu Pathak, Secretary, Department of Agriculture Research and Education (DARE) and Director General (DG), ICAR, Ministry of Agriculture and Farmers Welfare, Government of India, Dr. R.C. Agrawal, Deputy Director General Council of

International Conference Hosted by ICAR and World Bank under NAHEP calls for creating a Blended Learning Ecosystem in Agriculture

March 22, 2023

New Delhi, March 2023.

The International Conference on Blended Learning Ecosystem for Higher Education in Agriculture 2023, hosted jointly by **The Indian Council of Agricultural Research (ICAR)** and the **World Bank** from March 21-23 as a part of the National Agricultural Higher Education Project's (NAHEP) Resilient Agricultural Education System (RAES) development initiative has more than ten academic partners from around the world representing over ten countries deliberating on the best strategies in blended teaching and learning in agricultural education. A Blended Learning Platform focused on improving Digital Infrastructure across Agricultural Higher Education Institutions (A-HEIs) was unveiled by ICAR and World Bank to strengthen deployment of immersive technologies such as Augmented Reality (AR)/Virtual Reality (VR) Experiences and Virtual Classrooms.

Undertaken to strengthen the National Agricultural Education System in the country, NAHEP is a five-year project initiated in 2018 with equal contribution of \$82.5 million (about Rs 600 crore) each from the World Bank and the central government. The World Bank loan is to be repaid over 19 years after a grace period of five years. The purpose of NAHEP is to transform agricultural higher education. The Blended Learning Platform is part of the project.

About 1,000 students and 450 faculty members from 20 agricultural universities have completed international training at 89 institutes in 27 countries in 160 subjects under NAHEP till date. More than 900 experiential learning units where students can get hands-on experience for six months and become proficient in subjects as diverse as genomics and tea processing have been set up at various universities. The digital content repository has more than 160 digitised courses and faculty members have uploaded more than 10,000 videos.

Addressing the Conference, Chief Guest and **Hon'ble Union Minister of Agriculture and Farmers Welfare Shri Narendra Singh Tomar** stated, "Since the past five years, the ICAR has reached a new height. When we launched *Krishi Megh* nobody knew it would act as a game changer during the pandemic as it did not let India's education system be as adversely affected as other countries. I believe even in the future, it will help us in achieving many new accolades. Blended learning and agricultural sector will help India in becoming a developed nation status by 2047. Agriculture, which is the backbone of India's economy, can thrive with limited funding due to technology and knowledge. In line with 'sabka saath, sabka vikas' we make policies to ensure that people at the grassroot level benefit from them."

"Dr Himanshu Pathak, Secretary Department of Agriculture Research and Education (DARE) and **Director General (ICAR)** said, "I would like to thank the World Bank for being a committed partner to the Government of India. I believe it will further promote research and education. By 2047, India will become a developed nation as per our Hon'ble PM Narendra Modi's vision. To address the challenges of climate change and low productivity, education will play a crucial role. Our young students as well as scientists need to be equipped to combat all problems and experiment to learn new things which can be done through a blended learning ecosystem."

Dr RC Agrawal, Deputy Director General (Agricultural Education) of the Indian Council of Agricultural Research (ICAR), "It has been our endeavour to enhance agricultural higher education in alignment with guidance from NEP 2020 and the UN-SDGs. All agricultural universities have access to e-learning and e-governance applications; they all have smart classrooms, video conferencing facilities and virtual reality experience labs. Eighty-six percent of agricultural universities

ICAR and World Bank launch Blended Learning Platform for Agricultural Higher Education at International Conference 2023

SC Desk · March 27, 2023

The International Conference on Blended Learning for Higher Education in Agriculture 2023 was held from March 21-23 as part of the National Agricultural Higher Education Project (NAHEP) Resilient Agricultural Education System (RAES). A blended learning platform that focuses on improving digital infrastructure across digital agricultural higher education institutes was unveiled by ICAR and the World Bank to strengthen and develop immersive technologies such as augmented reality (AR), virtual reality (VR) experience, and virtual classrooms.

The conference was addressed by the Union Minister of Agriculture and Farmer Welfare, Narendra Singh Tomar, who envisions that blended learning in agriculture will help India become a developed nation by 2047. He further added that agriculture, the backbone of India's economy, can thrive with limited funding due to technology and knowledge. In line with 'Sabka Saath, Sabka Vikas', we make policies to ensure that people at the grassroots level can benefit from them.

ICAR and World Bank issue Delhi Declaration on Modernisation of Agricultural Education System

New Delhi : There is a need to strengthen digital Infrastructure including digital e-learning content and deployment of emerging immersive technologies across Agricultural Higher Education Institutions in India. Institutionalizing a system-wide Digital Capacity Building Program across stakeholders to improve systemic digital competence, knowledge and skills is also a necessity.

The Delhi Declaration on Modernisation of Agricul-

tural Education System in alignment with the National Education Policy issued jointly by The Indian Council of Agricultural Research

(ICAR) and the World Bank highlights the need to incorporate digital resources and tools for effective and accessible teaching

and learning in Agriculture. It lays emphasis towards creating a renewed and resilient system for gender-inclusive and sustainable education that will pave the way for the India's agriculture education sector. Multidisciplinary technology-facilitated education should be promoted and the policies on Science, Technology, Engineering, Agriculture and Mathematics (STEAM) in agricultural higher education need to be transformed.

आईसीएआर एवं विश्व बैंक ने ब्लेंडेड लर्निंग ईकोसिस्टम पर घोषणा पत्र जारी किया

नई दिल्ली, जेएनएन। भारत में सभी कृषि उच्च शिक्षा संस्थानों में डिजिटल ई लर्निंग कंटेंट एवं उभरती इमर्सिव टेक्नोलाजीज समेत डिजिटल आधारभूत ढांचे को मजबूत करने की जरूरत है। व्यवस्थागत डिजिटल क्षमता, ज्ञान और कौशल में सुधार के लिए सभी भागीदारों में प्रणालीगत डिजिटल क्षमता निर्माण को संस्थागत रूप प्रदान करने की भी आवश्यकता है। राष्ट्रीय शिक्षा नीति के अनुरूप कृषि शिक्षा प्रणाली के आधुनिकीकरण पर भारतीय कृषि अनुसंधान परिषद (आईसीएआर) और विश्व बैंक द्वारा जारी दिल्ली घोषणा पत्र में कृषि में प्रभावी अध्यापन और सीखने के लिए डिजिटल संसाधनों और टूल्स को समाहित करने की जरूरत रेखांकित की गई।

कृषि उच्च शिक्षा के लिए ब्लेंडेड लर्निंग इकोसिस्टम पर आयोजित 3 दिवसीय अंतरराष्ट्रीय सम्मेलन का हुआ समापन

गुडगांव, 28 मार्च (अ): भारतीय कृषि अनुसंधान परिषद (आईसीएआर) व विश्व बैंक द्वारा कृषि उच्च शिक्षा के लिए ब्लेंडेड लर्निंग इकोसिस्टम पर आयोजित 3 दिवसीय अंतरराष्ट्रीय सम्मेलन का समापन हो गया।

यह सम्मेलन राष्ट्रीय कृषि उच्च शिक्षा परियोजना (एनएचईपी) की रिसिलिएंट एग्रिकल्चर एजुकेशन सिस्टम (आरईएस) विकास पहल के तहत आयोजित किया गया था।

समापन पर घोषणा पत्र भी जारी किया गया, जिसमें कहा गया कि देश में सभी कृषि उच्च शिक्षा संस्थानों में डिजिटल ई लर्निंग कंटेंट एवं उभरती इमर्सिव टेक्नोलॉजीज समेत डिजिटल आधारभूत ढांचे को मजबूत करने की

कार्यक्रम में शामिल संगठनों के प्रतिनिधि।

जरूरत है। व्यवस्थागत डिजिटल क्षमता, ज्ञान और कौशल में सुधार के लिए सभी भागीदारों में प्रणालीगत डिजिटल क्षमता निर्माण को संस्थागत रूप प्रदान करने की भी आवश्यकता है। कृषि में प्रभावी अध्यापन और सीखने के लिए डिजिटल संसाधनों और टूल्स को समाहित करने की जरूरत रेखांकित की गई। इसमें से लिंग-समावेशी एवं टिकाऊ शिक्षा के लिए एक नवीन एवं सहनशील प्रणाली की दिशा में जोर दिया गया जो भारत के कृषि शिक्षा क्षेत्र का मार्ग प्रशस्त कर सके। वक्ताओं ने कहा कि देश में राष्ट्रीय कृषि शिक्षा प्रणाली को मजबूत करने के लिए वर्ष 2018 में एक पंचवर्षीय परियोजना एनएचईपी शुरू की गई जिसमें 8.25 करोड़ डॉलर (करीब 600 करोड़ रुपये) का समान योगदान किया गया। एएसआरबी के चेयरमैन डा. आरबी सिंह ने कहा कि ज्ञान और कौशल के प्रसार के जरिए टिकाऊ विकास लक्ष्यों को प्रोत्साहित कर हम कल की चुनौतियों से निपटने के लिए कृषि नेतृत्वकर्ताओं की अगली पीढ़ी को सशक्त करते हैं। डा. त्रिलोचन महापात्रा ने कहा कि शिक्षा एक संपन्न कृषि क्षेत्र की रीढ़ है। डा. आरसी अग्रवाल का कहना है कि यह सम्मेलन सभी मायनों में सफल रहा है।

आईसीएआर एवं विश्व बैंक ने ब्लेडेड लर्निंग ईकोसिस्टम पर अंतरराष्ट्रीय सम्मेलन में कृषि शिक्षा प्रणाली के आधुनिकीकरण पर दिल्ली घोषणा पत्र जारी किया

नई दिल्ली। भारत में सभी कृषि उच्च शिक्षा संस्थानों में डिजिटल ई लर्निंग कंटेंट एवं उभरती इमर्सिव टेक्नोलॉजीज समेत डिजिटल आधारभूत ढांचे को मजबूत करने की जरूरत है। व्यवस्थागत डिजिटल क्षमताएं ज्ञान और कौशल में सुधार के लिए सभी भागीदारों में प्रणालीगत डिजिटल क्षमता निर्माण को संस्थागत रूप प्रदान करने की भी आवश्यकता है।

राष्ट्रीय शिक्षा नीति के अनुरूप कृषि शिक्षा प्रणाली के आधुनिकीकरण पर भारतीय कृषि अनुसंधान परिषद, आईसीएआरड और विश्व बैंक द्वारा जारी दिल्ली घोषणा पत्र में कृषि में प्रभावी अध्यापन और सीखने के लिए डिजिटल संसाधनों और टूल्स को समाहित करने की जरूरत रेखांकित की गई। इसमें ऐसे लिंग, समावेशी एवं टिकाऊ शिक्षा के लिए एक नवीन एवं सहनशील प्रणाली की दिशा में जोर दिया गया जो भारत के कृषि शिक्षा क्षेत्र का मार्ग प्रशस्त करे। बहुक्षेत्रीय प्रौद्योगिकी सुगम शिक्षा को प्रोत्साहित किया जाना चाहिए और कृषि उच्च शिक्षा में विज्ञान प्रौद्योगिकी एवं इंजीनियरिंग कृषि एवं गणित, स्ट्रीमड पर नीतियों को परिवर्तित किए जाने की जरूरत है।

भारतीय कृषि अनुसंधान परिषद, आईसीएआरड और विश्व बैंक की मेजबानी में कृषि उच्च शिक्षा के लिए ब्लेडेड लर्निंग ईकोसिस्टम पर तीन दिवसीय अंतरराष्ट्रीय सम्मेलन के समापन दिवस पर दिल्ली घोषणा पत्र जारी किया गया। यह सम्मेलन राष्ट्रीय कृषि उच्च शिक्षा परियोजना, एनएचईपीड की रेसिलिएंट एग्रिकल्चर एजुकेशन सिस्टम; आरईएसड विकास पहल के तहत आयोजित किया गया।

इस देश में राष्ट्रीय कृषि शिक्षा प्रणाली को मजबूत करने के लिए वर्ष 2018 में एक पंचवर्षीय परियोजना एनएचईपी शुरू की गई जिसमें विश्व बैंक और केंद्र सरकार प्रत्येक की ओर से 8725 करोड़ डालर; करीब

600 करोड़ रुपये का समान योगदान किया गया। विश्व बैंक के ऋण की अदायगी पांच साल की छूट की अवधि के बाद अगले 19 वर्षों में की जानी है। एनएचईपी का उद्देश्य कृषि उच्च शिक्षा में परिवर्तन लाना है। ब्लेडेड लर्निंग प्लेटफॉर्म इसी परियोजना का हिस्सा है। इस समापन समारोह को संबोधित करते हुए नेशनल एकेडमी ऑफ एग्रिकल्चरल साइंसेज; एनएएसड के पूर्व अध्यक्ष और एग्रिकल्चरल साइंसेज रिस्कमैनेजमेंट बोर्ड; एएसआरबीड के चेयरमैन डाक्टर आरबी सिंह ने कहा ज्ञान और कौशल के प्रसार के जरिए टिकाऊ विकास लक्ष्यों को प्रोत्साहित कर हम कल की चुनौतियों से निपटने के लिए कृषि नेतृत्वकर्ताओं की अगली पीढ़ी को सशक्त करते हैं। कृषि इस विश्व में सकारात्मक परिवर्तन के लिए एक ताकत बनी रहे यह सुनिश्चित करने के लिए आइये हम सभी सीमाओं और क्षेत्रों में गठबंधन जारी रखें। कृषि अनुसंधान एवं शिक्षा विभाग के पूर्व सचिव और आईसीएआर के महानिदेशक डाक्टर त्रिलोचन महापात्र के मुताबिक शिक्षा एक संपन्न कृषि क्षेत्र की रीढ़ है।

आईसीएआर एवं विश्व बैंक ने ब्लेडेड लर्निंग ईकोसिस्टम पर अंतरराष्ट्रीय सम्मेलन में कृषि शिक्षा प्रणाली के आधुनिकीकरण पर दिल्ली घोषणा पत्र जारी किया

▶▶ सभी भागीदारों में प्रणालीगत डिजिटल क्षमता निर्माण की वकालत

नई दिल्ली, एजेंसी। भारत में सभी कृषि उच्च शिक्षा संस्थानों में डिजिटल ई लर्निंग कंटेंट एवं उभरती इमर्सिव टेक्नोलॉजीज समेत डिजिटल आधारभूत ढांचे को मजबूत करने की जरूरत है। व्यवस्थागत डिजिटल क्षमता, ज्ञान और कौशल में सुधार के लिए सभी भागीदारों में प्रणालीगत डिजिटल क्षमता निर्माण को संस्थागत रूप प्रदान करने की भी आवश्यकता है।

राष्ट्रीय शिक्षा नीति के अनुरूप कृषि शिक्षा प्रणाली के आधुनिकीकरण पर भारतीय कृषि अनुसंधान परिषद (आईसीएआर) और विश्व बैंक द्वारा जारी दिल्ली घोषणा पत्र में कृषि में प्रभावी अध्यापन और सीखने के लिए डिजिटल संसाधनों और टूल्स को समाहित करने की जरूरत रेखांकित की गई। इसमें ऐसे लिंग-समावेशी एवं टिकाऊ शिक्षा के लिए एक नवीन एवं सहनशील प्रणाली की दिशा में जोर दिया गया जो भारत के कृषि शिक्षा क्षेत्र का मार्ग प्रशस्त करे। बहुवैध प्रौद्योगिकी सुगम शिक्षा को प्रोत्साहित किया जाना चाहिए और कृषि उच्च शिक्षा में विज्ञान, प्रौद्योगिकी, इंजीनियरिंग, कृषि एवं गणित (स्टीम) पर नीतियों को परिवर्तित

करे जाने की जरूरत है। भारतीय कृषि अनुसंधान परिषद (आईसीएआर) और विश्व बैंक की मेजबानी में कृषि उच्च शिक्षा के लिए ब्लेडेड लर्निंग ईकोसिस्टम पर तीन दिवसीय अंतरराष्ट्रीय सम्मेलन के समापन दिवस पर दिल्ली घोषणा पत्र जारी किया गया। यह सम्मेलन राष्ट्रीय कृषि उच्च शिक्षा परियोजना (एनएचईपी) की रिसिलिएंट एग्रिकल्चर एजुकेशन सिस्टम (आरएईएस) विकास पहल के तहत आयोजित किया गया।

इस देश में राष्ट्रीय कृषि शिक्षा प्रणाली को मजबूत करने के लिए वर्ष 2018 में एक पंचवर्षीय परियोजना एनएचईपी शुरू की गई जिसमें विश्व बैंक और केंद्र सरकार प्रत्येक की ओर से 8.25 करोड़ डॉलर (करीब 600 करोड़ रुपये) का समान योगदान किया गया। विश्व

बैंक के त्रश की अदायगी पांच साल की छूट की अवधि के बाद अगले 19 वर्षों में की जानी है। एनएचईपी का उद्देश्य कृषि उच्च शिक्षा में परिवर्तन लाना है। ब्लेडेड लर्निंग प्लेटफॉर्म इसी परियोजना का हिस्सा है।

इस समापन समारोह को संबोधित करते हुए नेशनल एकेडमी ऑफ एग्रिकल्चरल साइंसेज (एनएएस) के पूर्व अध्यक्ष और एग्रिकल्चरल साइंटिस्ट्स रिक्रूटमेंट बोर्ड (एएसआरबी) के चेयरमैन डॉक्टर आरबी सिंह ने कहा, ज्ञान और कौशल के प्रसार के जरिए टिकाऊ विकास लक्ष्यों को प्रोत्साहित कर हम कल की चुनौतियों से निपटने के लिए कृषि नेतृत्वकर्ताओं की अगली पीढ़ी को सशक्त करते हैं। कृषि इस विश्व में सकारात्मक परिवर्तन के लिए एक ताकत बनी रहे, यह सुनिश्चित करने के

लिए आइये हम सभी सीमाओं और क्षेत्रों में गठबंधन जारी रखें। कृषि अनुसंधान एवं शिक्षा विभाग के पूर्व सचिव और आईसीएआर के महानिदेशक डॉक्टर त्रिलोचन महापात्र के मुताबिक, शिक्षा एक संपन्न कृषि क्षेत्र की रीढ़ है। ब्लेडेड लर्निंग पारंपरिक कक्षा में अध्यापन और तेजी से बदलती दुनिया की मांगों के बीच अंतर को पाटने का एक ताकतवर टूल की पेशकश करता है। उप महानिदेशक (कृषि शिक्षा) और एनएचईपी के राष्ट्रीय निदेशक, आईसीएआर, नई दिल्ली डॉक्टर आरसी अग्रवाल ने इस सम्मेलन की सफलता पर कहा, इस अंतरराष्ट्रीय सम्मेलन के दौरान पिछले तीन दिनों में कृषि में ब्लेडेड लर्निंग पर छह महत्वपूर्ण विषयों पर पैनेल परिचर्चा हुई और करीब 19 वक्ताओं ने अपने विचार रखे।

विश्व बैंक के कंट्री डायरेक्टर अगस्टो तानो कोउआमेने कहा, भारत का कृषि क्षेत्र इस देश की अर्थव्यवस्था में एक अहम भूमिका निभाता है। हर वर्ष 5,000 से अधिक भारतीय विद्यार्थी पीएचडी प्राप्त करते हैं जोकि शेष विश्व से अधिक है। इनसे लाभान्वित हो सके। कृषि मंत्रालय के निदेशक (विस्तार) डॉक्टर शैलेश कुमार मिश्रा और एनएचईपी (कॉपोनेट 2 एवं सीएएएसटी) आईसीएआर नई दिल्ली की राष्ट्रीय संयोजक डॉक्टर अनुराधा अग्रवालने भी अपनी उपस्थिति से इस समापन समारोह की शोभा बढ़ाई।

आईसीएआर एवं विश्व बैंक ने ब्लेंडेड लर्निंग ईकोसिस्टम पर अंतरराष्ट्रीय सम्मेलन में कृषि शिक्षा प्रणाली के आधुनिकीकरण पर दिल्ली घोषणा पत्र जारी किया

विजयनगर, 29 मार्च/दिल्ली

भारत में सभी कृषि उच्च शिक्षा संस्थानों में डिजिटल ई लर्निंग कंटेंट एवं उपरती इन्फॉर्मेशन टेक्नोलॉजीज समेत डिजिटल आधारित शिक्षा को मजबूत करने की जरूरत है। व्यवस्थित डिजिटल क्षमता, ज्ञान और कौशल में सुधार के लिए सभी भागीदारों में प्रणालीगत डिजिटल क्षमता निर्माण को संस्थागत रूप प्रदान करने की भी आवश्यकता है। राष्ट्रीय शिक्षा नीति के अंतर्गत कृषि शिक्षा प्रणाली के आधुनिकीकरण पर भारतीय कृषि अनुसंधान परिषद (आईसीएआर) और विश्व बैंक द्वारा जारी दिल्ली घोषणा पत्र में कृषि में प्रभावी अध्ययन और सीखने के लिए डिजिटल संसाधनों और टूलों को समाहित करने की जरूरत पर चर्चा की गई। इसमें ऐसे लिंग-सामाजिक एवं टिकाऊ शिक्षा के लिए एक नवीन एवं सफल प्रणाली की दिशा में जोर दिया गया जो भारत के कृषि शिक्षा क्षेत्र का मार्ग प्रशस्त करे। बहुवैध प्रौद्योगिकी युक्त शिक्षा को प्रोत्साहित किया जाना चाहिए और कृषि उच्च शिक्षा में विज्ञान, प्रौद्योगिकी, इंजीनियरिंग, कृषि एवं गणित (स्टीम) पर नीतियों को प्रतिबलित किए जाने की जरूरत है। भारतीय कृषि अनुसंधान परिषद (आईसीएआर) और

विश्व बैंक की मेजबानी में कृषि उच्च शिक्षा के लिए ब्लेंडेड लर्निंग ईकोसिस्टम पर तीन दिवसीय अंतरराष्ट्रीय सम्मेलन के समापन दिवस पर दिल्ली घोषणा पत्र जारी किया गया। यह सम्मेलन राष्ट्रीय कृषि उच्च शिक्षा परिषद (एनएचईपी) की रेसिडेंट एग्जिक्यूटिव एजुकेशन सिस्टम (आरएएस) विकास पहल के तहत आयोजित किया गया। इस देश में राष्ट्रीय कृषि शिक्षा प्रणाली को मजबूत करने के लिए वर्ष 2018 में एक पंचवर्षीय परियोजना एनएचईपी शुरू की गई जिसमें विश्व बैंक और केंद्र सरकार प्रत्येक को ओर से 8.25 करोड़ डॉलर (करीब 600 करोड़ रुपये) का समान योगदान किया

गया। विश्व बैंक के उच्च को अद्यतनी पांच साल की रूढ़ि की अर्धिक के बाद आगे 19 वर्षों में की जाने है। एनएचईपी का उद्देश्य कृषि उच्च शिक्षा में परिवर्तन लाने है। ब्लेंडेड लर्निंग पोटेंशियल इनोवेटिव परियोजना का हिस्सा है। इस सम्मेलन समारोह को संयोजित करने हुए नेशनल एकेडमी ऑफ एजुकेशनल रिसर्च (एनएएस) के पूर्व अध्यक्ष और एजुकेशनल साइंटिस्ट्स टिक्टमेंट बोर्ड (एएसआरबी) के चेयरमैन डाक्टर आरवी सिंह ने कहा कि ज्ञान और कौशल के प्रसार के लिए टिकाऊ विकास लक्ष्यों को प्रोत्साहित कर हम कल की चुनौतियों से निपटने के लिए

कृषि नेतृत्वकर्ताओं की अपनी पीढ़ी को सशक्त करते हैं। कृषि इस विश्व में सकारात्मक परिवर्तन के लिए एक उदाहरण बनी रहे, यह सुनिश्चित करने के लिए अद्यतनी हम सभी संसाधनों और क्षेत्रों में रुझान जारी रखें। कृषि अनुसंधान एवं शिक्षा विभाग के पूर्व सचिव और आईसीएआर के महादेशिक डाक्टर झिलेचन मल्लिक के मुताबिक, शिक्षा एक संरक्षक कृषि क्षेत्र को रीढ़ है। ब्लेंडेड लर्निंग परंपरिक कक्षा में अध्ययन और तेजी से बदलती दुनिया की मांगों के बीच अंतर को पटने का एक ताकतवर टूल की पेशकश करता है। मैं सभी भागीदारों से इसे आत्मसात करने और हमारी शिक्षा प्रणालियों में इसे एकीकृत

करने की गुजारिश करता हूँ। कृषि शिक्षा प्रणाली को मजबूत करने और कृषि क्षेत्र को वृद्धि में योगदान कर सकने वाला एक कुशल कारगर ढंग बनाने के उद्देश्य से हमारे लिए यह महत्वपूर्ण है कि हम नई पद्धतियों और प्रौद्योगिकियों को आत्मसात करें। उच्च शिक्षा (कृषि शिक्षा) और एनएचईपी के राष्ट्रीय डाक्टर आरवी सिंह, आईसीएआर, नई दिल्ली डाक्टर आरवी अग्रवाल ने इस सम्मेलन की सफलता पर कहा कि इस अंतरराष्ट्रीय सम्मेलन के दौरान पिछले तीन दिनों में कृषि में ब्लेंडेड लर्निंग पर छह महत्वपूर्ण विषयों पर पैल परिचर्चा हुई और करीब 19 वक्तव्यों ने अपने विचार रखे। हम एनएचईपी पेश करने के लिए भारत सरकार और भारत संसदीय के लिए विश्व बैंक का अग्रिम धन्यवाद करना चाहेंगे। कृषि का टिकाऊ विकास, शिक्षा को गुणवत्ता और प्रामाणिकता पर निर्भर करता है जो हम कृषि परिवर्तन को भावी पीढ़ी को उपलब्ध करते हैं। विश्व बैंक के कट्टी डायरेक्टर अग्रमते तानो कोउआमे ने कहा कि भारत का कृषि क्षेत्र इस देश की अर्थव्यवस्था में एक अग्रम भूमिका निभाता है। हर वर्ष 5,000 से अधिक भारतीय विद्यार्थी पेरुचडे प्राप्त करते हैं जोकि रोज विश्व से अधिक है।

मेरा मानना है कि व्यवसायिक शिक्षा के लिए कैसे अक्सर उपलब्ध कराए जा सकते हैं, एनएचईपी इसका आदर्श उदाहरण है क्योंकि हमने एक दूसरी पहल रेसिडेंट एजुकेशनल एजुकेशन सिस्टम (आरएएस) को मंच प्रदान किया है। हम इन नवी प्रौद्योगिकियों के प्रसार के लिए आईसीएआर और भारत सरकार के साथ काम करना जारी रखेंगे ताकि इस देश के सभी राज्य समान रूप से इससे लाभान्वित हो सकें। कृषि मंत्रालय के निदेशक (विस्तार) डाक्टर शैलेश कुमार मिश्र और एनएचईपी आईसीएआर नई दिल्ली की राष्ट्रीय संयोजक डाक्टर अनुराधा अग्रवालने भी अपनी उपस्थिति से इस सम्मेलन समारोह की शोभा बढ़ाई। इस अवसर में 10 देशों से प्रतिनिधियों ने प्रतिभाग किया और साथ ही अकादमिक क्षेत्र से कई लोगों, विशेषज्ञों और उद्योग के प्रतिनिधियों ने कृषि के लिए उच्च शिक्षा में ब्लेंडेड लर्निंग से संबंधित विषयों पर पैल परिचर्चा की। इस सम्मेलन में हुई पैल परिचर्चा में विभिन्न विषय जैसे कृषि शिक्षा में प्रौद्योगिकी की भूमिका, ब्लेंडेड लर्निंग के लिए डिजिटल टूलों के उपयोग, ऑनलाइन लर्निंग की चुनौतियों और अक्सर और कृषि में ब्लेंडेड लर्निंग का भूमिका शामिल रहे।

■ दिव्य राष्ट्र

नई दिल्ली। भारत में सभी कृषि उच्च शिक्षा संस्थानों में डिजिटल ई लर्निंग कंटेंट एवं उभरती इमर्सिव टेक्नोलॉजीज समेत डिजिटल आधारभूत ढांचे को मजबूत करने की जरूरत है। व्यवस्थागत डिजिटल क्षमता, ज्ञान और कौशल में सुधार के लिए सभी भागीदारों में प्रणालीगत डिजिटल क्षमता निर्माण को संस्थागत रूप प्रदान करने की भी आवश्यकता है। राष्ट्रीय शिक्षा नीति के अनुरूप कृषि शिक्षा प्रणाली के आधुनिकीकरण पर भारतीय कृषि अनुसंधान परिषद (आईसीएआर) और विश्व बैंक द्वारा जारी दिल्ली घोषणा पत्र में कृषि में प्रभावी अध्यापन और सीखने के लिए डिजिटल संसाधनों और टूल्य को समाहित करने की जरूरत रेखांकित की गई। इसमें ऐसे लिंग-समावेशी एवं टिकाऊ शिक्षा के लिए एक नवीन एवं सहनशील प्रणाली की दिशा में जोर दिया गया जो भारत के कृषि शिक्षा क्षेत्र का मार्ग प्रशस्त करे। बहुक्षेत्रीय प्रौद्योगिकी सुगम शिक्षा को प्रोत्साहित किया जाना चाहिए और कृषि उच्च शिक्षा में विज्ञान, प्रौद्योगिकी, इंजीनियरिंग, कृषि एवं गणित (स्टीम) पर नीतियों को परिवर्तित किए जाने की जरूरत है। भारतीय कृषि अनुसंधान परिषद (आईसीएआर) और विश्व बैंक की मेजबानी में कृषि उच्च शिक्षा के लिए ब्लेंडेड लर्निंग इकोसिस्टम पर तीन दिवसीय अंतरराष्ट्रीय

सम्मेलन के समापन दिवस पर दिल्ली घोषणा पत्र जारी किया गया। यह सम्मेलन राष्ट्रीय उच्च शिक्षा परिषद (एनएचईपी) की रेसिलिएंट एग्रीकल्चर एजुकेशन सिस्टम (आएईएस) विकास पहल के तहत आयोजित किया गया। इस देश में राष्ट्रीय कृषि शिक्षा प्रणाली को मजबूत करने के लिए वर्ष 2018 में एक पंचवर्षीय परियोजना एनएचईपी शुरू की गई जिसमें विश्व बैंक और केंद्र सरकार प्रत्येक की ओर से 8.25 करोड़ डॉलर (करीब 600 करोड़ रुपये) का समान योगदान किया गया। विश्व बैंक के ऋण की अदायगी पांच साल की छूट की अवधि के बाद अगले 19 वर्षों में की जानी है। एनएचईपी का उद्देश्य कृषि उच्च शिक्षा में परिवर्तन लाना है। ब्लेंडेड लर्निंग प्लेटफॉर्म इसी परियोजना का हिस्सा है। इस समापन समारोह को संबोधित करते हुए नेशनल एकेडमी ऑफ एग्रीकल्चरल साइंसेज (एनएएस) के पूर्व अध्यक्ष और एग्रीकल्चरल साइंसेज रिज्यूमेन्ट बोर्ड (एएसआरबी) के चेयरमैन डाक्टर आरवी सिंह ने कहा, ज्ञान और कौशल के प्रसार के जरिए टिकाऊ विकास लक्ष्यों को प्रोत्साहित कर हम कल की चुनौतियों से निपटने के लिए कृषि नेतृत्वकर्ताओं की अगली पीढ़ी को सशक्त करते हैं। कृषि इस विश्व में सकारात्मक परिवर्तन के लिए एक ताकत बनी रहे, यह सुनिश्चित करने के लिए आइये हम सभी

सीमाओं और क्षेत्रों में गठबंधन जारी रखें। कृषि अनुसंधान एवं शिक्षा विभाग के पूर्व सचिव और आईसीएआर के महानिदेशक डाक्टर त्रिलोचन महापात्र के मुताबिक, शिक्षा एक संपन्न कृषि क्षेत्र की गढ़ है। ब्लेंडेड लर्निंग पारंपरिक कक्षा में अध्यापन और तेजी से बदलती दुनिया की मांगों के बीच अंतर को पाटने का एक ताकतवर टूल की पेशकश करता है। मैं सभी भागीदारों से इसे आत्मसात करने और हमारी शिक्षा प्रणालियों में इसे एकीकृत करने की गुजारिश करता हूँ। कृषि शिक्षा प्रणाली को मजबूत करने और कृषि क्षेत्र की वृद्धि में योगदान कर सकने वाला एक कुशल कार्यबल तैयार करने के उद्देश्य से हमारे लिए यह महत्वपूर्ण है कि हम नई पद्धतियों और प्रौद्योगिकियों को आत्मसात करें। उप महानिदेशक (कृषि शिक्षा) और एनएचईपी के राष्ट्रीय निदेशक, आईसीएआर, नई दिल्ली डाक्टर आरसी अम्बवाल अंतरराष्ट्रीय सम्मेलन के दौरान पिछले तीन दिनों में कृषि में ब्लेंडेड लर्निंग पर छह महत्वपूर्ण विषयों पर पेनल परिचर्चा हुई और करीब 19 वक्ताओं ने अपने विचार रखे। हम एनएचईपी पेश करने के लिए भारत सरकार और सतत सहयोग के लिए विश्व बैंक का आभार व्यक्त करना चाहेंगे। कृषि का टिकाऊ विकास, शिक्षा की गुणवत्ता और

प्रासंगिकता पर निर्भर करता है जो हम कृषि पेशेवरों की भावी पीढ़ी को उपलब्ध कराते हैं। विश्व बैंक के कंट्री डायरेक्टर अगस्टे तानो कोउआमे ने कहा, भारत का कृषि क्षेत्र इस देश की अर्थव्यवस्था में एक अहम भूमिका निभाता है। हर वर्ष 5,000 से अधिक भारतीय विद्यार्थी पीएचडी प्राप्त करते हैं जो कि शेष विश्व से अधिक है। मेरा मानना है कि व्यवसायिक शिक्षा के लिए कैसे अवसर उपलब्ध कराए जा सकते हैं, एनएचईपी इसका आदर्श उदाहरण है क्योंकि इसने एक दूसरी पहल रेसिलिएंट एग्रीकल्चरल एजुकेशन सिस्टम (आएईएस) को मंच प्रदान किया है। हम इन नयी प्रौद्योगिकियों के प्रसार के लिए आईसीएआर और भारत सरकार के साथ काम करना जारी रखेंगे ताकि इस देश के सभी राज्य समान रूप से इनसे लाभान्वित हो सकें। कृषि मंत्रालय के निदेशक (विस्तार) डाक्टर शैलेश कुमार मिश्रा और एनएचईपी (केपोनेट 2 एवं सीएएसटी) आईसीएआर नई दिल्ली की राष्ट्रीय संयोजक डाक्टर अनुराधा अम्बवाल ने भी अपनी उपस्थिति से इस समापन समारोह की शोभा बढ़ाई। इस आयोजन में 10 देशों से प्रतिनिधियों ने प्रतिभाग किया और साथ ही अकादमिक क्षेत्र से कई लोगों, विशेषज्ञों और उद्योग के प्रतिनिधियों ने कृषि के लिए उच्च शिक्षा में ब्लेंडेड लर्निंग से संबंधित विषयों पर पेनल परिचर्चा की।

ICAR, World Bank Hosts Conference On Blended Learning Ecosystem

The Delhi Declaration was unveiled on the concluding day of the three-day international conference

The Delhi Declaration on Modernisation of Agricultural Education System in alignment with the National Education Policy issued jointly by The Indian Council of Agricultural Research (ICAR) and the World Bank highlights the need to incorporate digital resources and tools for effective and accessible teaching and learning in Agriculture. It lays emphasis towards creating a renewed and resilient system for gender-inclusive and sustainable education that will pave the way for the India's agriculture education sector. Multidisciplinary technology-facilitated education should be promoted and the policies on Science, Technology, Engineering, Agriculture and Mathematics (STEAM) in agricultural higher education need to be transformed.

The Delhi Declaration was unveiled on the concluding day of the three-day International Conference on Blended Learning Ecosystem for Higher Education in Agriculture 2023 hosted jointly by the ICAR and the World Bank. The Conference was held as part of the National Agricultural Higher Education Project's (NAHEP) Resilient Agricultural Education System (RAES) development initiative.

Undertaken to strengthen the National Agricultural Education System in the country, NAHEP is a five-year project initiated in 2018 with equal contribution of \$82.5 million (about Rs 600 crore) each from the World Bank and the central government. The World Bank loan is to be repaid over 19 years after a grace period of five years. The purpose of NAHEP is to transform agricultural higher education. The Blended Learning Platform is part of the project.

There is a need to strengthen digital infrastructure including digital e-learning content and deployment of emerging immersive technologies across Agricultural Higher Education Institutions in India. Institutionalizing a system-wide Digital Capacity Building Program across stakeholders to improve systemic digital competence, knowledge and skills is also a necessity.

The Delhi Declaration on Modernisation of Agricultural Education System in alignment with the National Education Policy issued jointly by The Indian Council of Agricultural Research (ICAR) and the World Bank highlights the need to incorporate digital resources and tools for effective and accessible teaching and learning in Agriculture. It lays emphasis towards creating a renewed and resilient system for gender-inclusive and sustainable education that will pave the way for the India's agriculture education sector. Multidisciplinary technology-facilitated education should be promoted and the policies on Science, Technology, Engineering, Agriculture and Mathematics (STEAM) in agricultural higher education need to be transformed.

The Delhi Declaration was unveiled on the concluding day of the successful three-day International Conference on Blended Learning Ecosystem for Higher Education in Agriculture 2023 hosted jointly by the ICAR and the World Bank. The Conference was held as part of the National Agricultural Higher Education Project's (NAHEP) Resilient Agricultural Education System (RAES) development initiative.

ICAR and World Bank issue Delhi Declaration on Modernisation of Agricultural Education System at International Conference on Blended Learning Ecosystem

March 28, 2023

New Delhi, March, 2023.

There is a need to strengthen digital Infrastructure including digital e-learning content and deployment of emerging immersive technologies across Agricultural Higher Education Institutions in India. Institutionalizing a system-wide Digital Capacity Building Program across stakeholders to improve systemic digital competence, knowledge and skills is also a necessity.

The Delhi Declaration on Modernisation of Agricultural Education System in alignment with the National Education Policy issued jointly by **The Indian Council of Agricultural Research (ICAR)** and the **World Bank** highlights the need to incorporate digital resources and tools for effective and accessible teaching and learning in Agriculture. It lays emphasis towards creating a renewed and resilient system for gender-inclusive and sustainable education that will pave the way for the India's agriculture education sector. Multidisciplinary technology-facilitated education should be promoted and the policies on Science, Technology, Engineering, Agriculture and Mathematics (STEAM) in agricultural higher education need to be transformed.

The Delhi Declaration was unveiled on the concluding day of the successful three-day **International Conference on Blended Learning Ecosystem for Higher Education in Agriculture 2023** hosted jointly by the **ICAR** and the **World Bank**. The Conference was held as part of the National Agricultural Higher Education Project's (NAHEP) Resilient Agricultural Education System (RAES) development initiative.

Undertaken to strengthen the National Agricultural Education System in the country, NAHEP is a five-year project initiated in 2018 with equal contribution of \$82.5 million (about Rs 600 crore) each from the World Bank and the central government. The World Bank loan is to be repaid over 19 years after a grace period of five years. The purpose of NAHEP is to transform agricultural higher education. The Blended Learning Platform is part of the project.

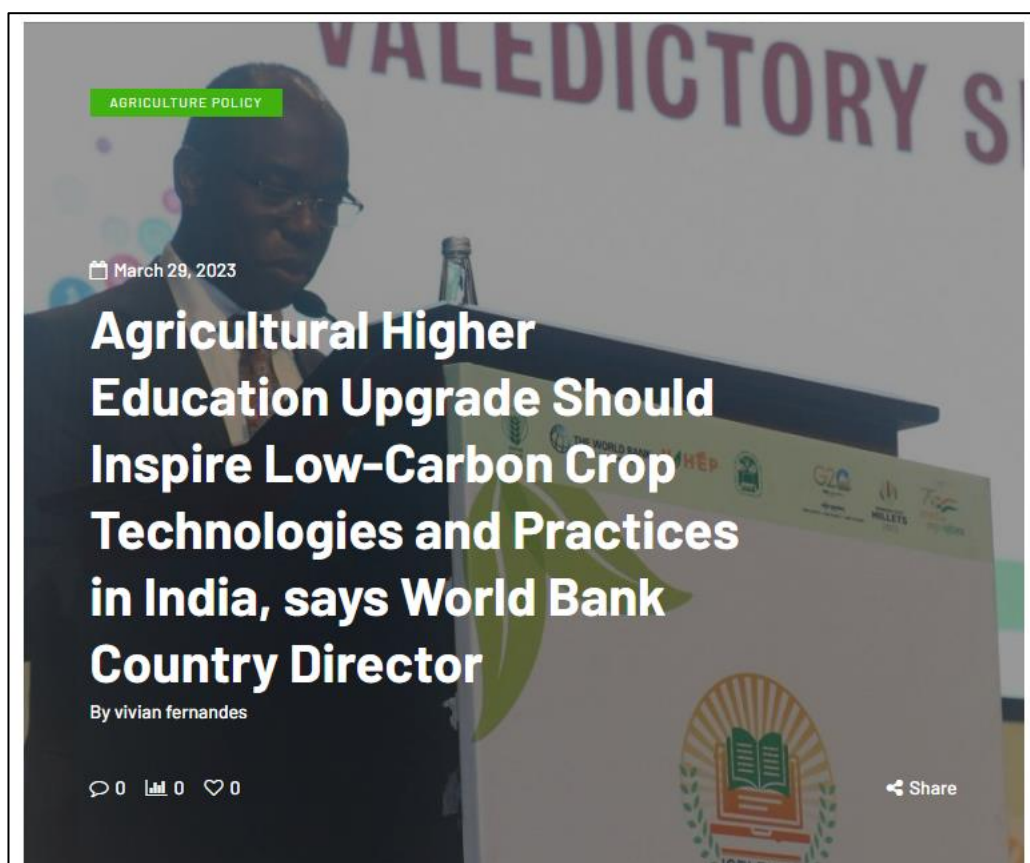

Speaking at the valedictory session, **Dr RB Singh, Former President of National Academy of Agricultural Sciences (NAAS) and Chairman, Agricultural Scientists Recruitment Board (ASRB)** said, "By promoting sustainable development goals through the dissemination of knowledge and skills, we empower the next generation of agricultural leaders to meet the challenges of tomorrow. Let us continue to collaborate across borders and disciplines, to ensure that agriculture remains a force for positive change in the world."

According to **Dr Trilochan Mohapatra, Former Secretary Department of Agricultural Research and Education (DARE) and Director General, ICAR, Ministry of Agriculture and Farmers Welfare**, "Education is the backbone of a thriving agricultural sector. Blended learning offers a powerful tool to bridge the gap between traditional classroom teaching and the demands of a rapidly changing world. I urge all stakeholders to embrace it and integrate it into our education systems. It is important for us to embrace new methods and technologies to strengthen the agriculture education system and develop a skilled workforce that can contribute to the growth of the agriculture sector."

Commenting on the success of the conference, **Dr RC Agrawal, Deputy Director General (Agricultural Education) ICAR and National Director, NAHEP** said, "The 3-day international conference saw around 19 keynote speakers and panel discussions on six important topics focusing on blended learning in agriculture. We would like to express our gratitude to the Government of India for introducing NAHEP and the World Bank for their constant support. The sustainable development of agriculture depends on the quality and relevance of education that we provide to the future generation of agricultural professionals."

"India's agricultural sector pays a massive significance on the country's economy. Every year, more than 5000 Indian students receive PhDs, which is more than the rest of the globe. I believe NAHEP is the perfect example of how opportunities can be provided for vocational education as it has given platform to another initiative called Resilient Agricultural Education System (RAES). We will continue working with the ICAR and the Government of India to disseminate new technologies so that all states of the country can benefit equally from them," said **Dr Auguste Tano Kouame, Country Director, the World Bank**.

World Bank Country Director in India Auguste Tano Kouame. Courtesy of ICAR

World Bank India Country Director Auguste Tano Kouame said the challenge before agricultural research institutions is to reverse high-carbon agriculture and minimise water use. He said the research institutions in the Indian Council of Agricultural Research (ICAR) system had made the country self-sufficient in food by developing high-yielding crop varieties. But they are carbon-intensive as they use a lot of water, fertilisers and agrochemicals. This is not sustainable.

कृषि शिक्षा क्षेत्र का मार्ग प्रशस्तिकरण के करने होंगे प्रयास

March 28, 2023 | 0

कृषि उच्च शिक्षा के लिए ब्लेंडेड लर्निंग ईकोसिस्टम पर आयोजित 3 दिवसीय अंतरराष्ट्रीय सम्मेलन का हुआ समापन

गुडगांव। भारतीय कृषि अनुसंधान परिषद (आईसीएआर) व विश्व बैंक द्वारा कृषि उच्च शिक्षा के लिए ब्लेंडेड लर्निंग ईकोसिस्टम पर आयोजित 3 दिवसीय अंतरराष्ट्रीय सम्मेलन का समापन हो गया। यह सम्मेलन राष्ट्रीय कृषि उच्च शिक्षा परियोजना (एनएएचईपी) की रेसिलिएंट एग्रिकल्चर एजुकेशन सिस्टम (आरईईएस) विकास पहल के तहत आयोजित किया गया था। समापन पर घोषणा पत्र भी जारी किया गया, जिसमें कहा गया कि देश में सभी कृषि उच्च शिक्षा संस्थानों में डिजिटल ई लर्निंग कंटेंट एवं उभरती इमर्सिव टेक्नोलॉजीज समेत डिजिटल आधारभूत ढांचे को मजबूत करने की जरूरत है।

व्यवस्थागत डिजिटल क्षमता, ज्ञान और कौशल में सुधार के लिए सभी भागीदारों में प्रणालीगत डिजिटल क्षमता निर्माण को संस्थागत रूप प्रदान करने की भी आवश्यकता है। कृषि में प्रभावी अध्यापन और सीखने के लिए डिजिटल संसाधनों और टूल्स को समाहित करने की जरूरत रेखांकित की गई। इसमें ऐसे लिंग, समावेशी एवं दिव्याङ्ग शिक्षा के लिए एक लचील एवं सहकारीव मायावी की दिशा में जोर दिया गया जो भारत के कृषि शिक्षा क्षेत्र का मार्ग प्रशस्त

Institutionalizing a system-wide Digital Capacity Building Program across stakeholders to improve systemic digital competence, knowledge and skills is also a necessity.

Dr R C Agrawal, Deputy Director General (Agricultural Education) ICAR and National Director, NAHEP felicitating Dr Auguste Tano Kouame, Country Director, the World Bank

The Delhi Declaration on Modernisation of Agricultural Education System in alignment with the National Education Policy issued jointly by The Indian Council of Agricultural Research (ICAR) and the World Bank highlights the need to incorporate digital resources and tools for effective and accessible teaching and learning in Agriculture. It lays emphasis towards creating a renewed and resilient system for gender-inclusive and sustainable education that will pave the way for the India agriculture education sector. Multidisciplinary technology-facilitated education should be promoted and the policies on Science, Technology, Engineering, Agriculture and Mathematics (STEAM) in agricultural higher education need to be transformed.

The Delhi Declaration was unveiled on the concluding day of the successful three-day International Conference on Blended Learning Ecosystem for Higher Education in Agriculture 2023 hosted jointly by the ICAR and the World Bank. The Conference was held as part of the National Agricultural Higher Education Project (NAHEP) Resilient Agricultural Education System (RAES) development initiative.

ICAR and World Bank Issue Delhi Declaration on Modernisation of Agricultural Education System at International Conference on Blended Learning Ecosystem

Mar 28, 2023 14:05 PM

New Delhi, India

- Declaration highlights need to strengthen digital Infrastructure including digital e-learning content and deployment of emerging immersive technologies across Agricultural Higher Education Institutions
- Calls for a system-wide Digital Capacity Building Program across stakeholders

There is a need to strengthen digital Infrastructure including digital e-learning content and deployment of emerging immersive technologies across Agricultural Higher Education Institutions in India. Institutionalizing a system-wide Digital Capacity Building Program across stakeholders to improve systemic digital competence, knowledge and skills is also a necessity.

Dr R C Agrawal, Deputy Director General (Agricultural Education) ICAR and National Director, NAHEP felicitating Dr Auguste Tano Kouame, Country Director, the World Bank

The Delhi Declaration on Modernisation of Agricultural Education System in alignment with the National Education Policy issued jointly by The Indian Council of Agricultural Research (ICAR) and the World Bank highlights the need to incorporate digital resources and tools for effective and accessible teaching and learning in Agriculture. It lays emphasis towards creating a renewed and resilient system for gender-inclusive and sustainable education that will pave the way for the India's agriculture education sector. Multidisciplinary technology-facilitated education should be promoted and the policies on Science, Technology, Engineering, Agriculture and Mathematics (STEAM) in agricultural higher education need to be transformed.

- Declaration highlights need to strengthen digital Infrastructure including digital e-learning content and deployment of emerging Immersive technologies across Agricultural Higher Education Institutions
- Calls for a system-wide Digital Capacity Building Program across stakeholders

There is a need to strengthen digital Infrastructure including digital e-learning content and deployment of emerging Immersive technologies across Agricultural Higher Education Institutions in India. Institutionalizing a system-wide Digital Capacity Building Program across stakeholders to improve systemic digital competence, knowledge and skills is also a necessity.

Dr R C Agrawal, Deputy Director General (Agricultural Education) ICAR and National Director, NAHEP felicitating Dr Auguste Tano Kouame, Country Director, the World Bank

The Delhi Declaration on Modernisation of Agricultural Education System in alignment with the National Education Policy issued jointly by The Indian Council of Agricultural Research (ICAR) and the World Bank highlights the need to incorporate digital resources and tools for effective and accessible teaching and learning in Agriculture. It lays emphasis towards creating a renewed and resilient system for gender-inclusive and sustainable education that will pave the way for the India's agriculture education sector. Multidisciplinary technology-facilitated education should be promoted and the policies on Science, Technology, Engineering, Agriculture and Mathematics (STEAM) in agricultural higher education need to be transformed.

Institutionalizing a system-wide Digital Capacity Building Program across stakeholders to improve systemic digital competence, knowledge and skills is also a necessity.

The Delhi Declaration on Modernisation of Agricultural Education System in alignment with the National Education Policy issued jointly by The Indian Council of Agricultural Research (ICAR) and the World Bank highlights the need to incorporate digital resources and tools for effective and accessible teaching and learning in Agriculture. It lays emphasis towards

creating a renewed and resilient system for gender-inclusive and sustainable education that will pave the way for the India's agriculture education sector. Multidisciplinary technology-facilitated education should be promoted and the policies on Science, Technology, Engineering, Agriculture and Mathematics (STEAM) in agricultural higher education need to be transformed. The Delhi Declaration was unveiled on the concluding day of the successful three-day International Conference on Blended Learning Ecosystem for Higher Education in Agriculture 2023 hosted jointly by the ICAR and the World Bank. The Conference was held as part of the National Agricultural Higher Education Project's (NAHEP) Resilient Agricultural Education System (RAES) development initiative.

Undertaken to strengthen the National Agricultural Education System in the country, NAHEP is a five-year project initiated in 2018 with equal contribution of \$82.5 million (about Rs 600 crore) each from the World Bank and the central government. The World Bank loan is to be repaid over 19 years after a grace period of five years, The purpose of NAHEP is to transform agricultural higher education. The Blended Learning Platform is part of the project.

Speaking at the valedictory session, Dr R B Singh, Former President of National Academy of Agricultural Sciences (NAAS) and Chairman, Agricultural Scientists Recruitment Board (ASRB) said, By promoting sustainable development goals through the dissemination of knowledge and skills, we empower the next generation of agricultural leaders to meet the challenges of tomorrow. Let us continue to collaborate across borders and disciplines, to ensure that agriculture remains a force for positive change in the world.

According to Dr Trilochan Mohapatra, Former Secretary Department of Agricultural Research and Education (DARE) and Director General, ICAR, Ministry of Agriculture and Farmers Welfare, "Education is the backbone of a thriving agricultural sector. Blended learning offers a powerful tool to bridge the gap between traditional
