SRINAGAR: Two students from SK University of Agricultural Sciences and Technology of Kashmir have been selected for Erasmus+ Fellowship at the

Professor at the Division of Plant Biotechnology is the Coordinator of the Erasmus+ programme under which faculty and student can attend the University of Padova, Italy for

University of Padova, Italy.

Under the fellowship, the students from the SKUAST-K's Division of Plant Biotechnology will undergo advanced training in the area of plant proteomics and metabolomics. The programme is a joint student and staff mobility between SKUAST-Kashmir and University of Padova, Italy under Erasmus+ programme. The students namely Ammarah Hami and Madhiya Manzoor, currently pursuing PhD Biotechnology at Division of Plant Biotechnology, Shalimar will spend six months at the University of Padova, Italy.

Dr Sajad Majeed Zargar, Assistant

advanced capacity building in the areas of proteomics/ metabolomics. Under this programme, one faculty member and one student have already undergone training at University of Padova Italy. The selection of candidates is done by a joint selection committee from both institutions.

Vice Chancellor, SKUAST-K, Prof Nazir Ahmad Ganai, complimented the coordinator of the programme, Dr Sajad Majeed Zargar, for this collaborative initiative that improves the international outlook of the university and helps students benefit from global learning and innovation ecosystems.
